The Human Needs Valentin Matcas, 2013-03-20 Everything that you do in life you do to fulfill your needs including your social demands eating development addictions sleeping reproduction social competition and learning While you can do so at all cognitive existential and social levels depending on means demands and abilities Furthermore you always follow laws in the world as you fulfill your needs but can you follow these simultaneously You may smile slightly here since experience is personalized and therefore unique throughout the world but what exactly is going on Why should you ever encounter problems as a living human being in a human world What are your needs and feelings exactly and what do they make you do Who sends you your own personal natural human needs And is everything that you know about the human needs pertinent enough to assure a meaningful successful fulfilling life Because everybody ends up in dreadful circumstances at times struggling with countless of problems it happens to you and to those around so why should you have to fail in life at least partially as a human being while following rules and the human needs simultaneously And since this happens to everybody can humans actually be at fault Because if humans themselves are considered wrong incapable or compromised in an actual human world through their own natural needs and feelings then what exactly do laws and authorities seek here if they do not serve humans society needs and fulfillment the most Because now it seems that authorities hold you responsible for everything that life sends your way ending up contradicting and judging life through you and punishing you dreadfully While many times it is done so on purpose to reach you or to take you out of the way Since everybody becomes involved when you fail and you have to be highly capable today to manage both life and society simultaneously And to make matters more complex you cannot find to learn anything on this topic but only laws codes stereotypes and irrelevant or trivial beliefs And now when you study everything closely you see how the human experience in this world is marked by the human needs and feelings on one side and by people s ignorance about the human needs and feelings on the other Throughout this book we study the comprehensive human existence very closely as it starts with the human needs We identify and analyze all needs feelings fulfillment behavior reasoning and meaning while understanding life and the wider world altogether If you seek to learn more about yourself and your own needs and feelings this book is for you

**Osho: A Mystic of Love** Swami Chaitanya Keerti,2022-04-27 This book Osho A Mystic of Love is a compilation of recent articles on a variety of subjects The author shares the most significant insights of his beloved master with the common people Swami Chaitanya Keerti shows them the ways to raise their consciousness to live a life of love and meditation creativity and celebration

Heal Yourself Valentin Matcas,2016-04-20 Throughout this book you learn to maintain your health prevent illnesses heal yourself and enhance your body and mind in order to become healthier stronger more capable and full of energy and life You learn to identify approach heal and prevent dozens of distinct illnesses and related health issues as diabetes colds and flu strokes allergies autism bipolar disorder obesity cancer depression atherosclerosis social problems headaches nausea heart attacks insomnia arthritis and much more This is not mainstream medicine since it does not involve drugs chemicals or any medical intervention it is not alternative medicine even if it involves only natural healing but it is the actual manner of healing it is your own normal healing system You learn everything that you need for your proper healing good health and excellent condition through all facts about your mind and body including how they function stay healthy and how they defend themselves against all illnesses There is a difference between curing and healing Because while curing refers to the superficial treatment of your symptoms making you feel good as all drugs do healing refers to the comprehensive treatment of your illness including all main causes and resulting symptoms Because in order to heal the actual illness you have to follow the entire line of causality rendering you ill up to the main reason triggering the actual illness since that makes you sick And if you do not heal or solve it you cannot heal the entire illness you cannot recover and therefore you can never feel better With the drugs prescribed by medicine interfering with your own recovery the entire time You might have already noticed people healing themselves yet it certainly takes more than a strong determination to be successful The endeavor of healing yourself and maintaining your health continuously throughout life might seem complex yet once you master it it takes less time less stress and less effort to stay healthy and fit while you may invest the rest of your time and effort on more important matters as living your life

**The Spectator** ,1841      **A Life-Centered Approach to Bioethics** Lawrence E. Johnson,2010-12-06 Approaches bioethics on the basis of a conception of life and what is needed for the affirmation of its quality in the most encompassing sense Johnson applies this conception to discussions of controversial issues in bioethics including euthanasia abortion cloning and genetic engineering His emphasis is not on providing definitive solutions to all bioethical issues but on developing an approach to coping with them that can also help us deal with new issues as they emerge The foundation of this discussion is an extensive examination of the nature of the self and its good and of various approaches to ethics His bioethic is integrally related to his well known work on environmental philosophy The book also applies these principles on an individual level offering a user friendly discussion of how to deal with ethical slippery slopes and how and where to draw the line when dealing with difficult questions of bioethics

A Consideration of Adam Rutherford,2008-05 A Consideration of Reality Human Nature and Metaphysics is just that a consideration of reality human nature and metaphysics Dealing with reality and more specifically how every person's perception of reality is different for numerous reasons and is the reason for an illusionary existence It is written while looking at topics from various subjects such as human emotions psychology physics and others Looking at human nature on a basis of intelligence specifically how the intelligence level in humans has become a burden upon all mankind on an individual basis and in small and large group dynamics we look at how humans can be conflicted by discussing the conflict of the heart and mind in regards to love as well as the conflict of the main divisions of the mind from Freudian psychology And finally mathematical concepts and constructs as well as theoretical sciences especially physics from a metaphysical standpoint By looking at the big bang theory the universe expansion and contraction theory wormhole theory and even Einstein's theory of relativity we come to see how erroneous these so called accepted theories actually are by observing them logically rationally and with common sense All the while trying to keep it simple

**Toleration, Neutrality and Democracy** Dario Castiglione,Catriona McKinnon,2013-03-09 Catriona McKinnon and Dario Castiglione It is not an overstatement to say that toleration is one of the most important issues for the definition of a moral and political theory with application to modern globalised societies Toleration is a value which no politician in any liberal democratic society would dare to reject In the UK its value is reflected in the learning outcomes of education for citizenship isolated by the Final Report of the Advisory Group on Citizenship which schools have a statutory responsibility to deliver children ought to be disposed to the practice of toleration and have the ability to tolerate other view points In these days of feelings of heightened insecurity prompting suspicion of strangers and departures from the norm toleration has again taken centre stage as one of the values definitive of stable and just liberal

democratic societies Toleration is a matter of principled restraint with respect to differences which are opposed either at the personal or at the political level With respect to the former level the tolerant person does not use the power she has over others she dislikes and or disapproves of to interfere with them However the tolerant person does not thereby divest herself of her dislike or disapproval the tolerant person does not transform her dislike and disapproval into warm feelings and neither does she simply become indifferent to what she hitherto disliked and disapproved of when she practices toleration
