A

significant payoff for social scientists studying disasters is that they can reveal much of the hidden nature of political and economic processes and structures particularly those in non democracies which are normally covered up with great care This book reviews the problems and progress in the politics of China s disaster management It analyses the factors in China s governance and political process that restrains its capacity to manage disasters The book helps the audience better understand the dynamic relationship among various interest groups and civic forces in modern China s disaster politics with special emphasis on the process of pluralization decentralization and fragmentation China's Crisis Management Jae Ho Chung,2013-03 This book presents a comprehensive overview of crisis management in China It considers economic political and military crises and also natural disasters and public health problems In each area it considers the nature of potential crises and their possible effects and the degree to which China is prepared to cope with crises *Crisis Communication in China* Wei Cui,2022-10-04 Crisis Communication in China examines crisis communication strategies taken by the Chinese government during public crises and discusses how the public react to these strategies exploring the cultural context and the development of digital media as critical factors underlying the strategies adopted **Hong Kong's Indigenous Democracy** Sonny Shiu Hing Lo,2016-04-29 This book is a unique contribution to the study of democratization in Hong Kong with chapters including the legal tradition in Hong Kong the features of Hong Kong s indigenous democracy the 2014 Umbrella Movement and the evolution of the Chief Executive election *Coping with Disaster Risk Management in Northeast Asia* Gregory Coutaz,2018-10-31 This book analyzes the diversity of national disaster risk governance across Northeast Asia by comparing the national disaster management plans implemented by the governments of China Taiwan Japan and South Korea It also provides an overview of the financial protection measures employed by these jurisdictions to insure against losses A Critical Public Relations Approach to Crisis Communication and Management Huabin Wang,2022-10-19 This book proposes a critical public relations approach to analyzing crisis communication with Malaysia Airlines flight 370 MH370 disappearance 2014 2018 as a case study It examines the discursive process of Malaysia s crisis response and image building tracing Malaysia Airlines during the immediate response and the Malaysian establishment until the official suspension of the underwater search The study features a critical discourse analysis of 84 national media texts and 85 response statements focusing on three aspects the national media representations of Malaysia s image the national carrier and the government s rhetorical strategies of delivering stances and actions and the dynamic process of image reconstruction and national recovery The present project contributes to the current research area by integrating both linguistic and public relations perspectives and more importantly by highlighting the ideological impact instead of merely behavioral effectiveness in modern communication research Target readers may find their interest in corporate crisis communication critical inquiry about political public relations and the MH370 incident in general *Media Politics in China* Maria Repnikova,2017-06-15 Maria Repnikova offers an innovative analysis of the media oversight role in China by

examining how a volatile partnership is sustained between critical journalists and the state *The Minjian Avant-Garde* Chang Tan, 2024-02-15 The Minjian Avant Garde studies how experimental artists in China mixed with brought changes to and let themselves be transformed by minjian the volatile and diverse public of the post Mao era Departing from the usual emphasis on art institutions global markets or artists communities Chang Tan proposes a new analytical framework in the theories of socially engaged art that stresses the critical agency of participants the affective functions of objects and the versatility of the artists in diverse sociopolitical spheres Drawing from hitherto untapped archival materials and interviews with the artists Tan challenges the views of Chinese artists as either dissidents or conformists to the regime and sees them as navigators and negotiators among diverse political discourses and interests She questions the fetishization of marginalized communities among practitioners of progressive art and politics arguing that the members of minjian are often more complex defiant and savvy than the elites would assume The Minjian Avant Garde critically assesses the rise of populism in both art and politics and show that minjian could constitute either a democratizing or a coercive force This book was published with generous support from the George Dewey and Mary J Krumrine Endowment **Understanding Chinese Society** Xiaowei Zang, 2015-07-14 This second edition of Understanding Chinese Society provides a comprehensive readable and well grounded introduction to the key issues affecting contemporary China A thorough analysis is undertaken not only of China s family patterns education system status hierarchy and ethnic diversity but also of China s mass media legal system and social control work and cultural expression As well as being thoroughly updated and revised throughout this edition offers new chapters on urbanization the environment and civil society in China A team of international experts guide students through social issues including What are the key features of the family and marriage institutions in China How are women and men faring differently in Chinese society today How are minorities faring in China How does the education system differentiate Chinese society How are religion and cultural traditions expressed Including handy pedagogical features such as a chronology of the People s Republic of China further reading suggestions and related novels and films Understanding Chinese Society is suitable for anyone studying Chinese Culture and Society Chinese Studies and Asian sociology *Crisis Rhetoric and Policy Change in China* Yihong Liu, 2022-01-13 This book explores how China s political system responds to crisis A crisis is an episode whose impact cannot be controlled merely by astute on the ground incident management particularly in cases involving widespread doubt about the legitimacy of established policy paradigms or the political order as a whole Crisis can create political windows for advocacy groups challenging established policies in pluralist democracies The political battle between competing definitions of an uncertain and ambiguous situation among the various actors provides them with crisis induced opportunity space for dramatic policy change However the process of crisis induced policy change mainly by crisis framing in non west regimes like China has not been adequately addressed As China s leadership foregrounds legitimacy in victory over COVID 19 and a new era of climate change disasters begins this dynamic model of

crisis and recuperation will offer food for thought for scholars of Chinese and global politics Disaster Management in China in a Changing Era Yi Kang, 2014-10-03 This book shows how Chinese officials have responded to popular and international pressure while at the same time seeking to preserve their own careers in the context of disaster management Using the 2008 Wenchuan earthquake as a case study it illustrates how authoritarian regimes are creating new governance mechanisms in response to the changing global environment and what challenges they are confronted with in the process The book examines both the immediate and long term effects of a major disaster on China's policy institutions and governing practices and seeks to explain which factors lead to hasty and poorly conceived reconstruction efforts which in turn reproduce the very same conditions of vulnerability or expose communities to new risks In short it tells a political story of how intra governmental interactions state society relations and international engagement can shape the processes and outcomes of recovery and reconstruction *International and Local Actors in Disaster Response* Tania N.

Haddad, 2022-06-19 *International and Local Actors in Disaster Response* uses the Beirut explosion in August 2020 to explore disaster prevention and response in developing states Disasters whether man made or natural have always tested governments and their bureaucracies Despite numerous research efforts existing empirical literature does not provide conclusive evidence on how multiple aspects of social infrastructure can simultaneously affect disaster preparedness and recovery and what role the international community can have This book analyzes the role of international and local organizations in responding to the disaster in Beirut and assesses the interorganizational collaboration between the public and private sectors following the explosion The author develops a conceptual framework of government non profit relations in post disaster management and examines the long term disaster response and intervention of both international and local communities in a developing world context This book will be of interest to students scholars and researchers of disaster management and response public administration international relations and the non profit sector **Case Studies in Crisis**
