The Ralph Manheim Story:

The Hard Facts of the Grimms' Fairy Tales Maria Tatar, 2003 Throughout the book Tatar employs the tools not only of a psychoanalyst but also of a folklorist literary critic and historian to examine the harsher aspects of these stories She presents new interpretations of the powerful stories in this book Few studies have been written in English on these tales and none has probed their allegedly happy endings so thoroughly **BOOK JACKET** *The Story of Stone* Jing Wang, 1992 In this pathbreaking study of three of the most familiar texts in the Chinese tradition all concerning stones endowed with magical properties Jing Wang develops a monumental reconstruction of ancient Chinese stone lore Wang's thorough and systematic comparison of these classic works illuminates the various tellings of the stone story and provides new insight into major topics in traditional Chinese literature Bringing together Chinese myth religion folklore art and literature this book is the first in any language to amass the sources of stone myth and stone lore in Chinese culture Uniting classical Chinese studies with contemporary Western theoretical concerns Wang examines these stone narratives by analyzing intertextuality within Chinese traditions She offers revelatory interpretations to long standing critical issues such as the paradoxical character of the monkey in *The Journey to the West* the circularity of narrative logic in *The Dream of the Red Chamber* and the structural necessity of the stone tablet in *Water Margin* By both challenging and incorporating traditional sinological scholarship Wang's *The Story of Stone* reveals the ideological ramifications of these three literary works on Chinese cultural history and makes the past relevant to contemporary intellectual discourse Specialists in Chinese literature and culture comparative literature literary theory and religious studies will find much of interest in this outstanding work which is sure to become a standard reference on the subject **The Chinese Vernacular Story** Patrick Hanan, 1981 **The Stories of Heinrich Von Kleist** Seán Allan, 2001 **The Oxford Guide to Literature in English Translation** Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e.g. Virgil's *Aeneid* which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and

discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

Staging History Astrid Oesmann, 2012-02-01 Staging History analyzes the commitment to social change present in the theatrical and theoretical writings of Bertolt Brecht Challenging previous notions Astrid Oesmann argues that Brecht's work was less dependent on Marxist ideology than is often assumed and that his work should be seen as a coherent whole Brecht used the stage to release political ideas into experimental spaces in which actors and spectators could explore the relationships between abstract thought and concrete social life Oesmann places Brecht within the context of the major leftist theorists of the twentieth century particularly Adorno Benjamin and Lukács focusing on their discussions of realism aesthetics natural history and mimesis Oesmann elaborates upon the vision of a counter public sphere in a number of Brecht's theoretical texts and plays especially The Three Penny Trial and Fear and Misery of the Third Reich that present the emergence of such a sphere in the face of fascism By exploring Brecht's theoretical writings selected plays and recently published theatrical fragments Oesmann reveals unpredictable constructions of history and surprising distinctions among various political ideologies while also proving that Brecht remains vitally relevant to a post communist world

Theatre and Boxing Franco Ruffini, 2023-08-25 Theatre and Boxing focuses on a problem which is of paramount importance for any theatre practitioner and researcher the actor's believable body This problem has been taken up by Stanislavski Meyerhold Artaud Brecht Decroux Copeau Grotowski and many others It is an essential hurdle for all who practice the theatrical craft or want to study it theoretically This hurdle can be considered one of the foundations of theatre science and of the relationship between technique politics and ethics This book tells the story of a revolution in the work of the actor in the early and mid 20th

century a period in which the focus of theatrical interest shifted from the emotions to the body The actor's body became a tool for purveying a dynamic set of actions which often transformed the very actor himself This new centrality of the body also drew attention to those places in which the body is central the gym the boxing ring and the circus with its trapezes and tightropes became together with the stage laboratories for the theatre Thus in addition to the reformers of the theatre the pages of this book are filled with boxers acrobats gymnasts and wrestlers pursuers of an utopia the actor who flies

Towards a History of Consciousness Vwadek P. Marciniak, 2006 *Towards a History of Consciousness Space Time and Death* offers a cogent and compelling discussion of the neglected topic of the history of consciousness An analysis of our postmodern ontology reveals deep but neglected roots What are those roots and how did they grow Is there a self without consciousness What is the relation of the self to the individual Does the recognition of death contribute to the growth of consciousness As a survey of western history this work pushes the boundaries of the understanding of consciousness in intriguing and sometimes provocative directions This integrative study is intended for the serious curious student and thinker

Short Stories, Knowledge and the Supernatural Amândio Reis, 2022-07-11 This book proposes a comparative approach to the supernatural short stories of Machado de Assis Henry James and Guy de Maupassant It offers an alternative to predominantly novel centric and Anglo centric perspectives on literary pre modernism by investigating a transnational and multilingual connection between genre theme and theory i e between the modern short story the supernatural and the problem of knowledge Incorporating a close analysis of the literary texts into a discussion of their historical context the book argues that Machado James and Maupassant explore and reinvent the supernatural short story as a metafictional genre This modernized and innovative form allows them to challenge the dichotomies and conventions of realist and supernatural fiction inviting their past and present readers to question common assumptions on reality and literary representation *Truth and Lamentation* Milton Teichman, Sharon Leder, 1994 The stories and poems in *Truth and Lamentation* written during and after the Holocaust reveal the human faces hidden behind the all too familiar statistics of the event International in scope this volume brings together 20 short stories and 90 poems commenting on the essentially incomprehensible nature of the Holocaust Milton Teichman and Sharon Leder have drawn from a remarkably varied range of writers representing nine languages and including both Jews and Gentiles The contributors include the well known and the as yet unknown A critical introduction places the selections within two broad categories of literary response to the Holocaust truth telling and lamentation The first reflects the desire of writers to transmit multiple truths the second expresses sorrow and loss

Stories of Culture and Place Michael G. Kenny, Kirsten Smillie, 2017-11-06 *Stories of Culture and Place* makes use of one of anthropology's most enduring elements storytelling to introduce students to the excitement of the discipline The authors invite students to think of anthropology as a series of stories that emerge from cultural encounters in particular times and places References to classic and contemporary ethnographic examples from *Coming of Age in Samoa* to *Coming of Age in*

Second Life allow students to grasp anthropology's sometimes problematic past while still capturing the potential of the discipline. This new edition has been significantly reorganized and includes two new chapters: one on health and one on economic change, as well as fresh ethnographic examples. The result is a more streamlined introductory text that offers thorough coverage but is still manageable to teach.

Shakespeare's History Plays A. J. Hoenselaars, 2004-09-23 This volume with a foreword by Dennis Kennedy addresses a range of attitudes to Shakespeare's English history plays in Britain and abroad from the early seventeenth century to the present day. It concentrates on the play texts as well as productions, translations and adaptations of them. The essays explore the multiple points of intersection between the English history they recount and the experience of British and other national cultures, establishing the plays as genres not only relevant to the political and cultural history of Britain but also to the history of nearly every nation worldwide. The plays have had a rich international reception tradition, but critics and theatre historians abroad, those practising foreign Shakespeare, have tended to ignore these plays in favour of the comedies and tragedies. By presenting the British and foreign Shakespeare traditions side by side, this volume seeks to promote a more finely integrated world Shakespeare.

Post-Jungian Psychology and the Short Stories of Ray Bradbury and Kurt Vonnegut Steve Gronert Ellerhoff, 2016-02-22 In this book Steve Gronert Ellerhoff explores short stories by Ray Bradbury and Kurt Vonnegut written between 1943 and 1968 with a post-Jungian approach. Drawing upon archetypal theories of myth from Joseph Campbell, James Hillman and their forerunner C. G. Jung, Ellerhoff demonstrates how short fiction follows archetypal patterns that can illuminate our understanding of the authors, their times and their culture. In practice, a post-Jungian methodology is shown to yield great insights for the literary criticism of short fiction. Chapters in this volume carefully contextualise and historicize each story, including Bradbury and Vonnegut's earliest and most imaginatively fantastic works. The archetypal constellations shaping Vonnegut's early works are shown to be war and fragmentation, while those in Bradbury's are family and the wholeness of the sun. Analysis is complemented by the explored significance of illustrations that featured alongside the stories in their first publications. By uncovering the ways these popular writers redressed old myths in new tropes and coined new narrative elements for hopes and fears born of their era, the book reveals a fresh method which can be applied to all imaginative short stories, increasing understanding and critical engagement.

Post-Jungian Psychology and the Short Stories of Ray Bradbury and Kurt Vonnegut is an important text for a number of fields: from Jungian and Post-Jungian studies to short story theories and American studies to Bradbury and Vonnegut studies. Scholars and students of literature will come away with a renewed appreciation for an archetypal approach to criticism, while the book will also be of great interest to practising depth psychologists seeking to incorporate short stories into therapy.
