## **The Rise Of Turkish Nationalism 1871-1908:**

**The Rise of Turkish Nationalism, 1876-1908**, 1977 *Kemalism* Leng Wang, 1928 *Tormented by History* Umut Ozkirimli, Spyros Sofos, 2008-05 *Tormented by History* is the first comparative study of nationalism in Greece and Turkey. Grounded in an extensive critical review of the popular and scholarly historiography and literature on Greek and Turkish nationalisms, it traces the emergence and development of the Greek and Turkish nationalist projects over the past two hundred years, challenging the received wisdom about the inevitability of the rise of a Greek and a Turkish nation. Acknowledging the complexity of the relationship between the two nationalisms, Ozkirimli and Sofos, one a Turk, the other a Greek, examine a complex terrain involving the politics of language, religion, memory, and history, territory and landscape, processes of homogenization, marginalization, and minoritization of populations and cultures, as well as institutional support of Greek and Turkish nationalism. They also discuss the place of constitutive violence, physical and symbolic, in the nationalist imagination and the ensuing trauma and sense of loss in the process of establishment and consolidation of Greek and Turkish identities. **The Post-WWI Rise of Turkish Nationalism and Resumption of Genocidal Policies**, 2024-02-15

**Turkish Nationalism and Western Civilization** Ziya Gökalp, 2025-04-01 *Turkish Nationalism and Western Civilization* 1959 presents Ziya Gökalp's synthesis of nationalism, Islam, and Western civilization in a developmental and systematic way. More than as a sociologist, poet, man of public affairs, or ideological slogan maker, Ziya Gökalp (1876-1924) deserves the attention of social practitioners and scientists for his insight into the problems of accommodating non-Western cultures and Western civilization progressively and creatively. [The Post-WWI Rise of Turkish Nationalism and Resumption of Genocidal Policies](#), 2023-05 *An Intellectual History of Turkish Nationalism* Umut Uzer, 2016 In this book, Umut Uzer examines the ideological evolution and transformation of Turkish nationalism from its early precursors to its contemporary protagonists. Turkish nationalism erupted onto the world stage in the late nineteenth and early twentieth centuries as Greeks, Armenians, and other minority groups within the Ottoman Empire began to seek independence. Partly in response to the rising nationalist voices of these groups, Turkish intellectuals began propagating Turkish nationalism through academic as well as popular books, and later associations published semipropagandist journals with the support of the Unionist and Kemalist governments. While predominantly a textual analysis of the primary sources written by the nationalists, this volume takes into account how political developments influenced Turkish nationalism and also tackles the question of how an ideology that began as a revolutionary, progressive, forward-looking ideal eventually transformed into one that is conservative, patriarchal, and nostalgic to the Ottoman and Islamic past. *Between Islamic and Turkish Identity* is the first book in any language to comprehensively analyze Turkish nationalism with such scope and engagement with primary sources; it aims to dissect the phenomenon in all its manifestations. **The Road to Turkish Language Reform and the Rise of Turkish Nationalism** Aaron Johnson, 2004 [The Rise of Turkish Nationalism, 1876-1908](#) David Kushner, 1977 An analysis of the ideas and doctrines of

Turkish nationalist writers in the closing decades of the Ottoman period This book argues that such ideas played an important role in the formation of modern Turkish nationalism

**Turkish nationalism in the Young Turk era** Masami Arai, 2021-11-15 Amongst the products of the French Revolution the idea of nation exerted the deepest influence on the East In the Ottoman Empire the concept bore a fresh idea of an Ottoman nation even though the term Ottoman in itself comprised many ethnic groups Alongside Ottoman nationalism Turkish nationalism arose in the latter half of the nineteenth century it became predominant in the Young Turk era Organizers of Turkish nationalism were scattered not only in the Ottoman Empire but also in Russia This book analyzes such complicated aspects of the development of nationalism in the Young Turk era with careful attention to both specific and general problems The author has chosen four leading nationalist periodicals as a clue for settling the issue He has thereby demonstrated that these periodicals are very useful for history and political science studies as well as for that of literature In addition a table of contents of the periodicals dealt with in the text has been added as an appendix which should be of considerable benefit to concerned scholars and students
