Bradshaw, 2013-12-03 Paul Bradshaw one of the world's foremost scholars on the history of Christian liturgy has shared this expertise in several works that have become standard texts for students of liturgy In *Rites of Ordination* Bradshaw turns his attention to the ways that Christians through the ages have understood what it means to ordain someone as a minister and how that has been

Women's Ordination in the Catholic Church John O'Brien,2020-07-30 Women s Ordination in the Catholic Church argues that women can be validly ordained to ministerial office O'Brien shows that claims by Roman dicasteries for an unbroken chain of authoritative tradition on the non ordainability of women a novel rather than traditional argument are not historically supported In the primitive Church with the offices of deacon presbyter and bishop in process of development women exercised ministries later understood as pertaining to those offices The sub apostolic period downplayed women s ministry for reasons of cultural adaptation not because it was thought that fidelity to Christ required it Furthermore extensive epigraphical evidence from a wide geographical area references women deacons and presbyters during the first millennium Restrictive developments in the concept of ordination from the twelfth century onwards do not negate how before that women were validly ordained according to contemporary ecclesial understanding Repeated canonical prohibitions on ordaining women show both that women were being ordained and how those bans were very selectively implemented These canons were a cultural practice in search of a theology and the subsequent theological justifications for restricting ordination to men appealed to supposed female inferiority against the background of priesthood as eminence rather than service O'Brien shows that the assertion of women s non ordainability is a matter of canon law rather than doctrine As such that law can be reformed
