Dictionary of Wars George Childs Kohn, 2013-10-31 Dictionary of Wars highly praised in its first edition 1986 has now been published in a completely revised updated and expanded 2nd Edition The Dictionary provides summaries of all notable wars from earliest recorded history to the present day It affords the general reader and student with quick useful and accurate information the who where when what why and how on the more than 1 800 recorded wars in human history from

2000 BC to the present Completely updated the Second Edition includes an additional 70 entries on such major events as the Gulf War the invasions of Panama and Haiti and the Bosnian crisis Romans, Barbarians, and the Transformation of the Roman World Ralph W. Mathisen, Danuta Shanzer, 2016-04-08 One of the most significant transformations of the Roman world in Late Antiquity was the integration of barbarian peoples into the social cultural religious and political milieu of the Mediterranean world The nature of these transformations was considered at the sixth biennial Shifting Frontiers in Late Antiquity Conference at the University of Illinois at Urbana Champaign in March of 2005 and this volume presents an updated selection of the papers given on that occasion complemented with a few others These 25 studies do much to break down old stereotypes about the cultural and social segregation of Roman and barbarian populations and demonstrate that contrary to the past orthodoxy Romans and barbarians interacted in a multitude of ways and it was not just barbarians who experienced ethnogenesis or cultural assimilation The same Romans who disparaged barbarian behavior also adopted aspects of it in their everyday lives providing graphic examples of the ambiguity and negotiation that characterized the integration of Romans and barbarians a process that altered the concepts of identity of both populations The resultant late antique polyethnic cultural world with cultural frontiers between Romans and barbarians that became increasingly permeable in both directions does much to help explain how the barbarian settlement of the west was accomplished with much less disruption than there might have been and how barbarian populations were integrated seamlessly into the old Roman world The Oxford Handbook of Warfare in the Classical World Brian Campbell, Lawrence A. Tritle, 2013-01-09 This Handbook gathers 38 leading historians to describe analyze and interpret warfare and its effects in classical Greece and Rome **Ancient Rome** Christopher S. Mackay, 2004 Sample Text The Philosophy of Symbolic Forms, Volume 2 Ernst Cassirer, 2019-07-01 Ernst Cassirer occupies a unique space in Twentieth century philosophy A great liberal humanist his multi faceted work spans the history of philosophy the philosophy of science intellectual history aesthetics epistemology the study of language and myth and more The Philosophy of Symbolic Forms is Cassirer s most important work It was first published in German in 1923 the third and final volume appearing in 1929 In it Cassirer presents a radical new philosophical worldview at once rich creative and controversial of human beings as fundamentally symbolic animals placing signs and systems of expression between themselves and the world This major new translation the first for over fifty years brings Cassirer s magnum opus to a new generation of students and scholars Volume 2 Mythical Thought considers the role of myth in human thought and expression Cassirer examines the main features of morphology of myth before tackling the relationship between myth and self consciousness He argues that human beings experience of the world around them is charged with affective and emotional significance as desirable or hateful comforting or threatening It is this type of meaning which underlies mythical consciousness and explains its disregard for the distinction between appearance and reality From mythical thought religion and art develop Cassirer argues making the mythical view of the world the earliest form of

philosophical expression Correcting important errors in previous English editions this translation reflects the contributions of significant advances in Cassirer scholarship over the last twenty to thirty years Each volume includes a new introduction and translator s notes by S G Lofts a foreword by Peter Gordon a glossary of key terms and a thorough index The Roman Eastern Frontier and the Persian Wars, Part 2: AD 363-630 Geoffrey Greatrex,2002

Warfare, State And Society In The Byzantine World 565-1204 John Haldon,2020-07-24 Warfare State and Society in the Byzantine World is the first comprehensive study of warfare and the Byzantine world from the sixth to the twelfth century The book examines Byzantine attitudes to warfare the effects of war on society and culture and the relations between the soldiers their leaders and society The communications logistics resources and manpower capabilities of the Byzantine Empire are explored to set warfare in its geographical as well as historical context In addition to the strategic and tactical evolution of the army this book analyses the army in campaign and in battle and its attitudes to violence in the context of the Byzantine Orthodox Church The Byzantine Empire has an enduring fascination for all those who study it and Warfare State and Society is a colourful study of the central importance of warfare within it

The Roman Empire in Late Antiquity Hugh Elton,2018-11-22 The Roman Emperor ran the Empire through contentious committee meetings at which civil military and religious policies were debated

Brill's Companion to War in the Ancient Iranian Empires ,2024-10-21 Brill s Companion to War in the Ancient Iranian Empires examines military structures and methods from the Elamite period through the Achaemenid Seleucid Arsacid and Sasanian empires War played a critical role in Iranian state formation and dynastic transitions imperial ideologies and administration and relations with neighbouring states and peoples from Central Asia to the Mediterranean Twenty chapters by leading experts offer fresh approaches to the study of ancient Iranian armies strategy diplomacy and battlefield methods and contextualise famous conflicts with Greek and Roman opponents

The Eurasian Way of War David A. Graff,2016-03-10 This book is a comparative study of military practice in Sui Tang China and the Byzantine Empire between approximately 600 and 700 CE It covers all aspects of the military art from weapons and battlefield tactics to logistics campaign organization military institutions and the grand strategy of empire Whilst not neglecting the many differences between the Chinese and Byzantines this book highlights the striking similarities in their organizational structures tactical deployments and above all their extremely cautious approach to warfare It shows that contrary to the conventional wisdom positing a straightforward Western way of war and an Oriental approach characterized by evasion and trickery the specifics of Byzantine military practice in the seventh century differed very little from what was known in Tang China It argues that these similarities cannot be explained by diffusion or shared cultural influences which were limited but instead by the need to deal with common problems and confront common enemies in particular the nomadic peoples of the Eurasian steppes Overall this book provides compelling evidence that pragmatic needs may have more influence than deep cultural imperatives in determining a society s way of war

The Cambridge Companion to the Age of Justinian Michael Maas,2005-04-18 This book

introduces the Age of Justinian the last Roman century and the first flowering of Byzantine culture Dominated by the policies and personality of emperor Justinian I 527 565 this period of grand achievements and far reaching failures witnessed the transformation of the Mediterranean world In this volume twenty specialists explore the most important aspects of the age including the mechanics and theory of empire warfare urbanism and economy It also discusses the impact of the great plague the codification of Roman law and the many religious upheavals taking place at the time Consideration is given to imperial relations with the papacy northern barbarians the Persians and other eastern peoples shedding new light on a dramatic and highly significant historical period *Routes and Roads in Anatolia from Prehistory to Seljuk Times* Lutgarde

Vandeput,Stephen Mitchell,2025-08-05 Turkey has always been a crossroads and therefore offers an ideal location to study interaction between individuals and human communities and societies through time Interaction has always necessarily involved movement which in turn did not occur randomly in the landscape but was instead focused on routes and roads that secured faster and easier connections There is substantial evidence that exchange networks already existed in Anatolia at least since the Neolithic period with goods traveling over long distances From the second millennium BC onwards textual evidence has improved understanding of traveling routes The Roman long distance road network has been a focus of research over decades but local roads and pathways around individual sites are still mostly unknown Byzantine roads have also received attention whereas the Seljuk road and routes system is less well known It is likely that the younger roads and routes are overlying older ones at least partially but these palimpsests of older roads are hardly researched In this volume experts from different disciplines using a variety of methods and approaches aim to transcend the present fragmentation of knowledge and create a new level of understanding of connecting road and route systems in Anatolia throughout time for the first time Roman Identity from the Arab Conquests to the Triumph of Orthodoxy Douglas Whalin,2021-01-22 This book

asks how the inhabitants and neighbours of the Eastern Roman Empire understand their identity as Romans in the centuries following the emergence of Islam as a world religion Its answers lie in exploring the nature of change and continuity of social structures self representation and boundaries as markers of belonging to the Roman group in the period from circa AD 650 to 850 Early medieval Romanness was integral to the Roman imperial project its local utility as an identifier was shaped by a given community's relationship with Constantinople the capital of the Roman state This volume argues that there was fundamental continuity of Roman identity from Late Antiquity through these centuries into later periods Many transformations which are ascribed to the Romans of this era have been subjectively assigned by outsiders separated by time or space and are not born out by the sources This finding dovetails with other recent historical works re evaluating the early medieval Eastern Roman polity and its ideology **Manichaean Texts from the Roman Empire** Iain Gardner,Samuel N.

C. Lieu,2004-06-03 This 2004 book is a single volume collection of sources for Manichaeism a world religion founded by Mani the Syrian visionary **The Chronicle of Pseudo-Zachariah Rhetor** Pseudo-Zachariah Rhetor,Zacharias (Bishop of

Mytilene.), Geoffrey Greatrex, 2011-01-01 Among the most important sources for the history of the church from the Council of Chalcedon in 451 to the early years of the reign of Justinian is the chronicle attributed to Zachariah of Mytilene Though Zachariah's Ecclesiastical History was just one of a range of sources cited by this later compiler so great was its influence that the resultant text bears his name The chronicle covers both church and secular affairs and includes a wealth of important information about the fifth and sixth centuries including a history of theological controversies a catalog of the world's regions based on Ptolemy's Geography and many eyewitness accounts of key historical events The Chronicle of Pseudo Zachariah Rhetor is the first translation of this seminal text to a modern language in over one hundred years and the new edition benefits from improvements in Syriac lexicography and expanded research on the source Contributions from two eminent Syriac scholars Sebastian P Brock and Witold Witakowski and a detailed commentary further enhance the value of this book as does the substantial bibliography Beyond a mere translation this book is a key resource for understanding the development of the modern dynamics of Christianity in Turkey Iraq and the Near East
