**The Roman House in Britain** Dominic Perring, 2002-06 Recent studies have tended to seek explanations for the peculiarities of Romano British architecture in local tradition but this book shows how Britain embraced and elaborated Hellenistic ideas and spatial forms Roman houses were built to sustain power and Roman architecture gained currency in Britain because of its relevance to new political structures erected in the wake of conquest *The Roman House in Britain* Dominic Perring, 2002-09-11 This authoritative and original work sets the results of recent archaeological research in the context of classical scholarship as it explores three main aspects of Romano British buildings general characteristics of form and structure the ways in which they were built and decorated the range of activities for which they were designed This evidence is then used to discuss the social practices and domestic arrangements that characterised Romano British elite society Fully illustrated this volume is the essential guide to how houses were built used and understood in Roman Britain

**London in the Roman World** Dominic Perring, 2022-01-27 incAn original authoritative survey of the archaeology and history of Roman London London in the Roman World draws on the results of latest archaeological discoveries to describe London's Roman origins It presents a wealth of new information from one of the world's richest and most intensively studied archaeological sites and a host of original ideas concerning its economic and political history This original study follows a narrative approach setting archaeological data firmly within its historical context London was perhaps converted from a fort built at the time of the Roman conquest where the emperor Claudius arrived to celebrate his victory in AD 43 to become the commanding city from which Rome supported its military occupation of Britain London grew to support Rome's campaigning forces and the book makes a close study of the political and economic consequences of London's role as a supply base Rapid growth generated a new urban landscape and this study provides a comprehensive guide to the industry and architecture of the city The story traced from new archaeological research shows how the city was twice destroyed in war and suffered more lastingly from plagues of the second and third centuries These events had a critical bearing on the reforms of late antiquity from which London emerged as a defended administrative enclave only to be deserted when Rome failed to maintain political control This ground breaking study brings new information and arguments to our study of the way in which Rome ruled and how the empire failed

Alcock, Robin Osborne, 2012-05-21 The fully revised second edition of this successful volume includes updates on the latest archaeological research in all chapters and two new essays on Greek and Roman art It retains its unique paired essay format as well as key contributions from leading archaeologists and historians of the classical world Second edition is updated and revised throughout showcasing the latest research and fresh theoretical approaches in classical archaeology Includes brand new essays on ancient Greek and Roman art in a modern context Designed to encourage critical thinking about the interpretation of ancient material culture and the role of modern perceptions in shaping the study of art and archaeology Features paired essays one covering the Greek world the other the

Roman to stimulate a dialogue not only between the two ancient cultures but between scholars from different historiographic and methodological traditions Includes maps chronologies diagrams photographs and short editorial introductions to each chapter *Twilight of the Godlings* Francis Young,2023-03-30 A bold and field defining exploration of the cultural and religious origins of Britain s small gods fairies and other supernatural beings **Glastonbury and the Grail** Justin E. Griffin,2012-12-04 Glastonbury a small town in Somerset England stands at the epicenter of a longstanding tradition placing the Holy Grail in Britain Legend holds that Joseph of Arimathea traveled to Britain bringing with him both a gathering of followers and the cup that Jesus used at the last supper He is said to have buried the Grail at Glastonbury where some claim he founded the first church in England This volume chronicles one man s personal quest to find historical evidence supporting the traditional beliefs surrounding Joseph of Arimathea and the Holy Grail in southern England Bolstered by an abundance of evidence supporting the presence of Joseph in 1st Century Britain he separates his findings from the fantasy of the Grail Romances answering questions about the Grail and the origins and progressions of its legend *Current Archaeology* ,2002 **Houses in Roman Britain** Dominic Perring,1999 **The Socio-Economics of Roman Storage** Astrid Van Oyen,2020-05-14 This is the first archaeological study to approach the central problem of storage in the Roman world holistically across contexts and datasets of interest to students and scholars of Roman archaeology and history and to anthropologists keen to link the scales of farmer and state **Early Christianity in South-West Britain** Elizabeth Rees,2020-03-30 This book offers a new assessment of early Christianity in south west Britain from the fourth to the tenth centuries a rich period which includes the transition from Roman to native British to Saxon models of church The book will be based on evidence from archaeological excavations early texts and recent critical scholarship and cover Wessex Devon and Cornwall In the south west Wessex provides the greatest evidence of Roman Christianity The fifth century Dorset villas of Frampton and Hinton St Mary with their complex baptistery mosaics indicate the presence of sophisticated Christian house churches The fact that these two Roman villas are only 15 miles apart suggests a network of small Christian communities in this region The author uses evidence from St Patrick s fifth century Confessions to describe how members of a villa house church lived Wessex was slowly Christianised in Gloucestershire the pagan healing sanctuary at Chedworth provides evidence of later use as a Christian baptistery at Bradford on Avon in Wiltshire a baptistery was dug into the mosaic floor of an imposing villa which may by then have been owned by a bishop In Somerset a number of recently excavated sites demonstrate the transition from a pagan temple to a Christian church Beside the pagan temple at Lamyatt later female burials suggest unusually a small monastic group of women Wells cathedral grew beside the site of a Roman villa s funeral chapel In Street a large oval enclosure indicates the probable site of a Celtic monastery Early Christian cemeteries have been excavated at Shepton Mallet and elsewhere Lundy Island off the Devon coast provides evidence of a Celtic monastery with its inscribed stones that commemorate early monks At Exeter a Saxon anthology includes numerous riddles one of which

describes in detail the production of an illuminated manuscript in a south western monastery Oliver Padel s meticulous documentation of Cornish place names has demonstrated that of all the Celtic regions Cornwall has by far the highest number of dedications to a single otherwise unknown individual typically consisting of a small church and a farm by the sea These small monastic cells have hitherto received little attention as a model of church in early British Christianity and the latter part of the text focuses on various aspects of this model as lived out in coastal and in upland settlements on islands and in relation to larger Breton monasteries Study of 60 Breton sites has demonstrated possible connections between larger Breton monasteries and smaller Cornish cells **American Book Publishing Record** ,2002 **Gender and the**

**Space, Movement and the Economy in Roman Cities in Italy and Beyond** Frank Vermeulen,Arjan Zuiderhoek,2021-05-26 How were space and movement in Roman cities affected by economic life What can the study of Roman urban landscapes tell us about the nature of the Roman economy These are the central questions addressed in this

volume While there exist many studies of Roman urban space and of the Roman economy rarely have the two topics been investigated together in a sustained fashion In this volume an international team of archaeologists and historians focuses explicitly on the economics of space and mobility in Roman Imperial cities in both Italy and the provinces east and west Employing many kinds of material and written evidence and a wide range of methodologies the contributors cast new light both on well known and on less explored sites With their direct focus on the everyday economic uses of urban spaces and the movements through them the contributors offer a fresh and innovative perspective on the workings of Roman urban economies and on the debates concerning space in the Roman world This volume will be of interest to archaeologists and historians both those studying the Greco Roman world and those focusing on urban economic space in other periods and places as well as to other scholars studying premodern urbanism and urban economies      **Rebuilding the Past** Dai Morgan Evans, Roger James, Christine Shaw, 2003 This title accompanies a ten part Discovery Channel series from October to December 2003 in which professional and amateur archaeologists construct a Roman villa from scratch using Roman methods and materials      *Town and Country in England* Dominic Perring, 2002 The relationship between towns or urban centers and the countryside around them is a complex one Beneath the striking cover of this book lies the results of a research project that promotes new ways of thinking about and investigating this relationship The Urban Hinterlands Project of the Universities of Leicester and York 1997 8 sought to investigate the social and economic dependencies between town and country and sees the latter as the major source of power for the elite who imposed urban centers on the landscape to serve their needs and aspirations This report combines theoretical and methodological approaches which are largely based on archaeological finds it highlights the quality and quantity of archaeological evidence available and presents a series of case studies from areas such as East Anglia London Hampshire and Yorkshire      *Choice* ,2003      **Annual Bibliography of British and Irish History** ,2002
