## **The Roots Of Ill Governance And Corruption:**

The Roots of Ill-Governance and Corruption V. Santhakumar, 2014-12-15 A comprehensive assessment of the motivation behind corruption and ill governance      The New Economic Approach to Social and Political Issues Martin Patrick, G. Visakh Varma, Freny Das, 2024-12-20 The New Economic Approach NEA has revolutionized economic disciplines by positing many social and political issues as endogenous variables and makes rigorous and scientific analysis possible through a neo classical framework The NEA unravels familial behaviour fertility marriage altruism discrimination dowry love crime and punishment and addiction This new approach has been revolutionary in that it accommodates tools and theories that move beyond the neoclassical framework The new political economy pressure groups rent seeking and organ donation are but a few of the issues analysed with the aid of the public choice theory new institutional economics and the principal agent theorem This volume shines a light on these topics and subjects them to critical analysis It is a unique work catering to academics researchers and policymakers      **Critical Issues in South African Education** Charl C. Wolhuter, 2020-12-31 The main

thesis of this book is that given that South African education faces major challenges the BRICS Brazil Russia India China and South Africa constellation of states offers thus far overlooked a valuable tertium comparationis a source of international comparative perspectives to inform the domestic scholarly discourse on education This book first investigates the national contexts and development of education in the BRICS countries arguing that this grouping represents a valuable but yet overlooked field for illuminating South African education issues with international perspectives The book consists of chapters arguing for and illustrating this thesis from a variety of angles Common to all chapters is that authors used the comparative method in education that is comparing the national education system in their education societal context interrelationships of the BRICS countries The chapters focus on a number of critical issues in South African education including the language of learning and teaching issue the alignment of the world of education with the world of work early childhood education and the development of world class universities Regarding the last for example China has been the terrain of the most intensive national projects of establishing world class universities with Project 985 Project 211 and the Double First Class University project The chapters demonstrate what South Africa in approaching her education issues can learn from the experience of the BRICS countries      **History of Illinois, from 1778-1833** Ninian Wirt Edwards, Ninian Edwards, 1870

**Post-Conflict Governance in Sierra Leone** Abubakar Hassan Kargbo, 2015 This book contains ten chapters and constitutes an attempt to discuss some of the key areas of governance in the country This text posits three main arguments First that promoting democratic good governance in Sierra Leone is an imperative that should be embarked upon by any government if it is to ensure socioeconomic and political development on the one hand and peace and security on the other Second that the process of promoting democratic good governance will not be an easy task and this is why any government should strive to be vigilant and extricate the country from dependence the fact remains that a successful good governance

environment in Sierra Leone will depend on economic development Third that governance should be not only enhanced through ensuring adequate capacity but also constantly monitored and it should be a permanent phenomenon The need to strengthen links between and among the government civil society and the private sector cannot be overemphasized this is necessary to ensure the dynamism that should characterize a good governance environment This environment should include a new Sierra Leonean psyche that of the interests of the state first anchored in attitudinal and behavioral change In this book the author also attempts to determine how far Sierra Leone has gone in its practice of democratic good governance and the challenges it is facing in trying to do so He also makes recommendations on how these challenges could be surmounted
