Cahill, 2024-12-19 The second edition of *Overcoming Objectification* A Carnal Ethics provides a critical analysis of the widely used particularly in feminist philosophy concept of objectification and offers a new concept derivatization in its stead Cahill suggests an abandonment of objectification due to the concept's dependence on a Kantian ideal of personhood an ideal that fails to recognize sufficiently the role the body plays in personhood and results in an implicit vilification of the body and sexuality Phenomena associated with objectification are ethically problematic not because they render women objects and therefore not persons but rather because they construct feminine subjectivity and sexuality as wholly derivative of masculine subjectivity and sexuality Women are not objectified as much as they are derivatized turned into a mere reflection or projection of the other Cahill argues for a sexual ethics grounded in difference carnality and intersubjectivity The preface to the second edition traces new scholarly contributions to conversations regarding sexual ethics feminist engagements with Kant intersectionality and trans philosophy With original and far reaching insights regarding the structure of gender inequality this work will be of interest to students and scholars in the humanities and social sciences alike and will be of particular use to those interested in sexual ethics sexual assault and
