Courts United States. National Advisory Commission on Criminal Justice Standards and Goals, 1973 This report presents proposals for the restructuring and streamlining of the processing of criminal cases at state and local levels A major restructuring and streamlining of procedures and practices in processing criminal cases at state and local levels is proposed by the National Advisory Commission on Criminal Justice Standards and Goals The proposals of the Commission appear in the form of specific standards and recommendations almost 100 in all that spell out in detail where why how and what improvements can and should be made in the judicial segment of the criminal justice system The report on courts is a reference work for the practitioner judge court administrator prosecutor or defender as well as the interested layman The Commission argues that the problems which keep the criminal court system from performing its functions are inconsistency in the processing of criminal defendants uncertainty concerning results obtained unacceptable delays and alienation of the community In composing suggested improvements for the court system the Commission s first priority is to devise standards for attaining speed and efficiency in the pretrial and trial processes and prompt finality in appellate proceedings The second priority is the upgrading of defense and prosecution functions and the third priority is the assurance of a high quality in the judiciary To expedite pretrial procedures the prosecutor should screen all criminal cases coming before him and divert from the system all cases wherein further processing by the prosecutor is not appropriate Among Commission recommendations are elimination of all but the investigative function of the grand jury elimination of formal arraignment unification of all courts within each state and the upgrading of criminal court personnel

Rascuache Lawyer Alfredo Mirandé, 2011-09-01 Alfredo Mirand a sociology professor Stanford Law graduate and part time pro bono attorney represents clients who are rascuache a Spanish word for poor or even wretched and on the margins of society For Mirand however rascuache means to be down but not out an underdog who is still holding its ground Rascuache Lawyer offers a unique perspective on providing legal services to poor usually minority folks who are often just one short step from jail Not only a passionate argument for rascuache lawyering it is also a thoughtful practical attempt to apply and test critical race theory particularly Latino critical race theory in day to day legal practice Every chapter presents an actual case from Mirand s experience only the names and places have been changed His clients have been charged with everything from carrying a concealed weapon indecent exposure and trespassing to attempted murder domestic violence and child abuse Among them are recent Mexican immigrants drug addicts gang members and the homeless All of them are destitute and many are victims of racial profiling Some pay Mirand with bartered services such as painting home repairs or mechanical work on his car And Mirand doesn t always win their cases But as he recounts he certainly works tirelessly to pursue all legal remedies Each case is presented as a letter to a fascinating fictional Super Chicana named Fermina Gabriel

who we are told is an accomplished lawyer author and singer This narrative device allows the author to present his cases as if he were recounting them to a friend drawing in the reader as a friend as well Bookending the individual cases Miranda's introductions and conclusions offer a compelling vision of progressive legal practice grounded in rasquache lawyering
