Excited Delirium Aisha M. Beliso-De Jesús, 2024-06-24 In 1980 Charles Wetli a Miami based medical examiner and self proclaimed cult expert of Afro Caribbean religions identified what he called excited delirium syndrome Soon medical examiners began using the syndrome regularly to describe the deaths of Black men and women during interactions with police Police and medical examiners claimed that Black people with so called excited delirium exhibited superhuman strength induced from narcotics abuse It was fatal heart failure that killed them examiners said not forceful police restraints In Excited Delirium Aisha M Beliso De Jes s examines this fabricated medical diagnosis and its use to justify and erase police violence against Black and Brown communities Exposing excited delirium syndrome s flawed diagnostic criteria she outlines its inextricable ties to the criminalization of Afro Latin religions Beliso De Jes s demonstrates that it is yet a further example of the systemic racism that pervades law enforcement in which the culpability for state violence is shifted from the state onto its victims In so doing she furthers understanding of the complex layers of medicalized state sanctioned violence against people of color in the United States

**Fascism, Vulnerability, and the Escape from Freedom** C. Jon Delogu, 2022 A worldwide

struggle between democracy and authoritarianism set against a backdrop of global surveillance capitalism is unmistakable. Examples range from Myanmar, China and the Philippines to Hungary, Turkey, Russia and the United States. Fascism, Vulnerability and the Escape from Freedom offers a multidisciplinary analysis drawing on psychology and literature to provide readers with a deeper understanding of the mechanisms that drive people to abandon democracy in favor of vertically organized authoritarianism and even fascism. In a comparative study of texts selected for their insights and occasional blind spots regarding fascist experiments of the past 100 years, Delogu examines fascism's exploitation of fear of change, loss and death, disruption and extreme inequality. The book offers an accessible and persuasive argument linking fascist authoritarianism, also called right wing populism, to certain underlying conditions such as a rise in us versus them thinking, distrust or simple apathy regarding democratic institutions, norms and results, the vulnerabilities that result from extreme inequality, economic, social, racial and addictions and codependency. Stressful events such as a pandemic, an environmental disaster or deep recession aggravate these harmful factors and make the fascist temptation, including the use of violence, almost irresistible. Delogu's distinctive examination of texts that plumb the unconscious reveal linkages between actions and unavowable motives that purely historical and theoretical studies of fascism leave out. Erich Fromm's neglected 1941 classic *Escape from Freedom* serves as a key reference in Delogu's study as does Robert Paxton's authoritative history *The Anatomy of Fascism* (2004). After underscoring the argument and urgent context around these two studies, Hitler's Germany and George W. Bush's post 9/11 America, Delogu examines novels, a diary, memoirs and manifestos to show how vulnerability forces individuals to choose between exclusionary fascist authoritarianism and inclusive collaborative democracy.

**Call and Response** Veronica Chambers, Jennifer Harlan, 2021. During 2020, widespread protests rooted in the call and response tradition of the Black community gained worldwide attention in the wake of high profile wrongful deaths of Black people. From the founders to watershed moments, follow the activists and organizers on their journeys and discover the ways that protest has been fundamental to American democracy, eventually making meaningful change. [The Rage of Innocence](#) Kristin Henning, 2021-09-28. A brilliant analysis of the foundations of racist policing in America, the day to day brutalities largely hidden from public view endured by Black youth growing up under constant police surveillance and the persistent threat of physical and psychological abuse. Storytelling that can make people understand the racial inequities of the legal system and restore the humanity this system has cruelly stripped from its victims. *New York Times Book Review*. Drawing upon twenty five years of experience representing Black youth in Washington D.C.'s juvenile courts, Kristin Henning confronts America's irrational manufactured fears of these young people and makes a powerfully compelling case that the crisis in racist American policing begins with its relationship to Black children. Henning explains how discriminatory and aggressive policing has socialized a generation of Black teenagers to fear, resent and resist the police, and she details the long term consequences of racism that they experience at the hands of the police and their vigilante surrogates. She makes clear

that unlike White youth who are afforded the freedom to test boundaries experiment with sex and drugs and figure out who they are and who they want to be Black youth are seen as a threat to White America and are denied healthy adolescent development She examines the criminalization of Black adolescent play and sexuality and of Black fashion hair and music She limns the effects of police presence in schools and the depth of police induced trauma in Black adolescents Especially in the wake of the recent unprecedented worldwide outrage at racial injustice and inequality *The Rage of Innocence* is an essential book for our moment

*The Cosby Cohort* Cherise A. Harris, 2013-02-14 The *Cosby Cohort* examines the childhood experiences of second generation middle class Blacks who grew up in mostly White spaces during the 1980s and 1990s This probing book explores their journey to upward mobility including the discrimination they faced in White neighborhoods and schools the extraordinary pressures placed upon them to achieve the racial lessons imparted to them by their parents their tenuous relationships with Black children of other classes and the impact that all of these experiences had on their adult racial identities At young ages this generation of middle class Blacks whom Harris coins as the *Cosby Cohort* was faced with racial displacement frustration and the ever present pressure to emerge victorious against the pull of downward mobility Even in adulthood they continue to negotiate the tensions between upward mobility and maintaining ties to the larger Black community and culture While these young Blacks may have grown up watching *The Cosby Show* as the book reveals their stories indicate a much more complex reality than portrayed by the show

**Going to School in Black and White** Cindy Waszak Geary, LaHoma Smith Romocki, 2017-09-26 The challenges of identity assimilation achievement and politics that were faced by LaHoma and Cindy are the same challenges our youth are facing today Jaki Shelton Green poet and NC Literary Hall of Fame inductee The school careers of two teenage girls who lived across town from each other one black one white were altered by a court ordered desegregation plan for Durham NC in 1970 LaHoma and Cindy both found themselves at the same high school from different sides of a court ordered racial balancing act This plan thrust each of them involuntarily out of their comfort zones and into new racial landscapes Their experiences recounted in alternating first person narratives are the embodiment of desegregation policies situated in a particular time and place Cindy and LaHoma's intertwining coming of age stories are part of a bigger story about America education and race and about how the personal relates to the political This dual memoir covers the two women's life trajectories from early school days to future careers working in global public health challenging gender biases racial inequities and health disparities LaHoma and Cindy tell their stories aware of the country's return to de facto school segregation achieved through the long term dismantling of policies that initially informed their school assignments As adults they consider the influence of school desegregation on their current lives and the value of bringing all of us into conversation about what is lost or gained when children go to school in black and white

*The Unfinished Queer Agenda After Marriage Equality* Angela Jones, Joseph DeFilippis, Michael Yarbrough, 2018-04-17 While legal recognition of marriage has met the needs of a segment of the LGBTQ population many still face daily struggles with issues

around housing education healthcare policing and incarceration and immigration These are issues that were largely eclipsed in national arenas by the fight for marriage equality In reaction to this *The Unfinished Queer Agenda After Marriage Equality* examines the institutional failings and overlapping systems of injustice that continue to dehumanize queer and trans people and deprive them of basic human rights Building on a major conference held in 2016 entitled *After Marriage The Future of LGBTQ Politics and Scholarship* the editors have collected academic papers edited transcripts of selected conference sessions and interviews with activists Drawing from this source material the book argues that any queer agenda should be informed by an understanding that the issues facing queer and trans people come from the combined influence of neo liberal capitalism global white supremacy and heterosexism The authors argue that these modes of oppression continue to be especially damaging for poor people undocumented people people of color non binary trans and queer people By taking an in depth look at the myriad social issues that continue to affect LGBTQ communities and by exposing systemic prejudices and inequality as the root cause this title is an important intervention for students and researchers engaged with queer and trans activism beyond the fight for marriage equality
