Spreadsheet Chemistry O. Jerry Parker, Gary L. Breneman, 1991 **Merrill Chemistry** Robert C. Smoot, Smoot, Richard G. Smith, Jack Price, 1998 **Applied Science**, 2010-05-20 This comprehensive teacher pack checked and endorsed by Edexcel includes detailed lesson plans assignments and worksheets covering all Pass Merit and Distinction criteria supported by easy to use administrative tools **Creating the Global Classroom** Laurence Peters, 2022-03-10 The book examines how to begin to think like a global educator first by examining how our own histories and experiences have formed our own cultural and professional identities and second how the varied frames by which global education can be understood pedagogical ideological and cosmopolitan have shaped the field Laurence Peters connects theory and practice about global education relevant to cultivating global awareness in primary and secondary students Rather than seeing global education as a special field separate from the other disciplines the author encourages integration of global perspectives into everything we do Showcasing how global awareness is a developmental issue dependent upon the student s ability to step

outside of their own place based comfort zone this volume lays out a roadmap of major challenges and issues around instilling this awareness in students This book connects theory and practice about global education relevant to cultivating global awareness in primary and secondary students From this foundation the book engages with the challenge of integrating global perspectives within a crowded curriculum By convincing students and teachers alike of global education s centrality thinking globally becomes an integral component of learning across subject areas and grade levels and this work encourages students to exercise empathy for the other and to develop critical skills to see through media distortions and fake news so they can better resist the tendency of politicians in our increasingly multicultural countries to divide people along racial and ethnic lines

A Look at Zambia's Road Financing Strategies: The Impact of Incongruent Policies and Budgets

Yohane Tembo, 2015 There are various reasons why the road asset in Zambia has been deteriorating over the past five decades since independence Much effort to restore the road asset to its original value and keep it maintained in a good and safe condition was initiated in mid 1990s with the launch of the Road Sector Investment Plan Phase I which was immediately followed by the launch of a Phase II to run from 2003 to 2013 It is my appreciation that many diagnostic studies into road financing strategies which could have led to inefficient road asset management in Zambia have been undertaken and various solutions tendered The author takes cognizance that resource mobilization for road construction and maintenance and subsequent allocation to respective road programs can often be problematic for an emerging country like Zambia It has the potential to lead to inefficiencies in road asset management as has evidently been demonstrated in the declining road asset value over time The political as well as the economic landscape plays a vital role in resource mobilization and allocation strategies as much as the institutional and the legal framework do The failure to clear the backlog of maintenance which normally results largely from deferment of scheduled maintenance due to insufficient annual budgetary allocation to the road sector maintenance programs has led to the significant deterioration in road network condition Exorbitant road construction costs have posed additional challenges to the fiscus thereby constraining both the quantity and quality of road infrastructure that could be constructed and maintained at any given time Recent policy drives have been categorical in their preference of new road construction aimed at linking Zambia over road maintenance which plays a pivotal role in road asset management This creates a perception that policy pronouncements are at variance to policy documents which promote sustainable economic development through efficient road investments and could be seen as being paradoxical in that the actual financing strategies are skewed towards road construction a recipe of comfort for the next election challenge due to increased visibility on the ground rather than to maintenance as an astute and effective way of managing the road asset The difficult of establishing congruence between government pronouncements and actual road business strategies in the implementing agencies has over the years posed challenges to the fiscal policy implementation Consequently this has often led to serious budget overruns due firstly to unplanned expenditure and secondly variations due to scope increase resulting from project

implementation without having prior designs This has led to high operating inefficiencies of existing roads due to the high level of pavement degradation with the eventual effect of higher vehicle operating costs longer travel times driver and passenger discomfort and ultimately higher agency pavement replacement costs The damage caused to the economy is apparent in all this The author carried out an analysis of road financing strategies in Zambia taking a special look into the past decade with the view to ascertaining the extent to which roads budgets have been employed to fund new construction and maintenance This was necessary to establish whether there was a mismatch in allocation of resources for roads in terms of needs and policy in which new road construction is highly favored in preference to maintenance It was hoped that if the mismatch existed it would espouse some paradoxes which existed between the road asset management policies and actual strategies

Trends in Teaching Experimentation in the Life Sciences Nancy J. Pelaez, Stephanie M. Gardner, Trevor R. Anderson, 2022-05-11 This book is a guide for educators on how to develop and evaluate evidence based strategies for teaching biological experimentation to thereby improve existing and develop new curricula It unveils the flawed assumptions made at the classroom department and institutional level about what students are learning and what help they might need to develop competence in biological experimentation Specific case studies illustrate a comprehensive list of key scientific competencies that unpack what it means to be a competent experimental life scientist It includes explicit evidence based guidelines for educators regarding the teaching learning and assessment of biological research competencies The book also provides practical teacher guides and exemplars of assignments and assessments It contains a complete analysis of the variety of tools developed thus far to assess learning in this domain This book contributes to the growth of public understanding of biological issues including scientific literacy and the crucial importance of evidence based decision making around public policy It will be beneficial to life science instructors biology education researchers and science administrators who aim to improve teaching in life science departments Chapters 6 12 14 and 22 are available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)
