"Travel, Collecting, and Museums of Asian Art in Nineteenth-Century Paris " Ting Chang,2017-07-05 Travel Collecting and Museums of Asian Art in Nineteenth Century Paris examines a history of contact between modern Europe and East Asia through three collectors Henri Cernuschi Emile Guimet and Edmond de Goncourt Drawing on a wealth of material including European travelogues of the East and Asian reports of the West Ting Chang explores the politics of mobility and cross cultural encounter in the nineteenth century This book takes a new approach to museum studies and institutional critique by highlighting what is missing from the existing scholarship the foreign labors social relations and somatic experiences of travel that are constitutive of museums yet left out of their histories The author explores how global trade and monetary theory shaped Cernuschi s collection of archaic Chinese bronze Exchange systems both material and immaterial determined Guimet s museum of religious objects and Goncourt s private collection of Asian art Bronze porcelain and prints articulated the shifting relations and frameworks of understanding between France Japan and China in a time of profound transformation Travel Collecting and Museums of Asian Art in Nineteenth Century Paris thus looks at what Asian art was imagined to do for Europe This book will be of interest to scholars and students interested in art history travel imagery museum studies cross cultural encounters and modern transnational histories **The Invention of Race** Nicolas Bancel,Thomas David,Dominic Thomas,2014-04-24 This edited collection explores the genesis of scientific conceptions of race and their accompanying impact on the taxonomy of human collections internationally as evidenced in ethnographic museums world fairs zoological gardens international colonial exhibitions and ethnic shows A deep epistemological change took place in Europe in this domain toward the end of the eighteenth century producing new scientific representations of race and thereby triggering a radical transformation in the visual economy relating to race and racial representation and its inscription in the body These practices would play defining roles in shaping public consciousness and the representation of otherness in modern societies The Invention of Race provides contextualization that is often lacking in contemporary discussions on diversity multiculturalism and race Iran and French Orientalism Julia Caterina Hartley,2023-12-28 New translations of Persian literature into French the invention of the Aryan myth increased travel between France and Iran and the unveiling of artefacts from ancient Susa at the Louvre Museum are among the factors that radically altered France s perception of Iran during the long nineteenth century And this is reflected in the literary culture of the period In an ambitious study spanning poetry historiography fiction travel writing ballet opera and marionette theatre Julia Hartley reveals the unique place that Iran held in the French literary imagination between 1829 and 1912 Iran s history and culture remained a constant source of inspiration across different generations and artistic movements from the Oriental poems of Victor Hugo to those of Anna de Noailles and Th ophile Gautier s strategic citation of Persian poetry to his daughter Judith

Gautier's full-blown rewriting of a Persian epic. Writing about Iran could also serve to articulate new visions of world history and religion as was the case in the intellectual debates that took place between Michelet, Renan and Al Afghani. Alternatively joyous as in F. L. David's opera *Lalla Roukh* and ominous as in Massenet's *Le Mage*. Iran elicited a multiplicity of treatments. This is most obvious in the travelogues of Flandin, Gobineau, Loti, Jane Dieulafoy and Marthe Bibesco which describe the same cities and cultural practices in altogether different ways. Under these writers' pens Iran emerges as both an Oriental other and an alter ego, its culture elevated above that of all other Muslim nations. At times this led French writers to critique notions of European superiority. But at others they appropriated Iran as proto-European through racist narratives that reinforced Orientalist stereotypes. Drawing on theories of Orientalism and cultural difference, this book navigates both sides of this fascinating and complex literary history. It is the first major study on the subject.

Tocquevillian Ideas

Zbigniew Rau, Marek Tracz-Tryniecki, 2014-04-01. This book offers a new European-centered approach to Tocqueville's thought. Although Tocqueville is often revered as a classic writer on the subject of American democracy, this book focuses on the multifaceted importance of his ideas within a European context. This collection of essays presents Tocqueville's vision of a diverse and united Old Continent, exploring his ideas of liberty, virtue, religion, patriotism, greatness, civic participation, and democracy. These thoughts are analyzed not only in the context of Tocqueville's output but also in the light of their potential to describe the dilemmas of contemporary Europe and to offer remedies for its problems.

Le livre d'or de l'ordre de

Léopold et de la croix de fer, 1838. Racisms Francisco Bethencourt, 2014-01-19. A groundbreaking history of racism. *Racisms* is the first comprehensive history of racism from the Crusades to the twentieth century. Demonstrating that there is not one continuous tradition of racism, Francisco Bethencourt shows that racism preceded any theories of race and must be viewed within the prism and context of social hierarchies and local conditions. In this richly illustrated book, Bethencourt argues that in its various aspects, all racism has been triggered by political projects monopolizing specific economic and social resources. *Racisms* focuses on the Western world but opens comparative views on ethnic discrimination and segregation in Asia and Africa. Bethencourt looks at different forms of racism and explores instances of enslavement, forced migration, and ethnic cleansing while analyzing how practices of discrimination and segregation were defended. This is a major interdisciplinary work that moves away from ideas of linear or innate racism and recasts our understanding of interethnic relations.

The Human Face of Globalization

Jacques Audinet, 2004-11-20. International immigration, massive migrations, economic globalization, and a world-wide communications revolution have brought about a mixing of races, cultures, and lifestyles unprecedented in human history. What are the implications of this phenomenon? What options present themselves—a battle of cultures for power, a move toward communitarian cooperation, or something new, the evolution of racially and culturally mixed societies? Anthropologist and sociologist Jacques Audinet proposes an alternative to culture wars and simple multiculturalism as he explores the history and evolution of *mestizaje*, the mixing of races and cultures resulting in

a third and new force able to ease the tensions between the original two Audinet reviews the tragic history of imperial and colonial conquests and traces the growth of mestizaje especially stimulated by literature music and sports Audinet argues that instead of chasing or preserving the illusion of pure races we need to face the shifting boundaries of peoples and cultures He acknowledges the uncertainty of the changes but emphasizes the essential role that mestizaje can play in the avoidance of racial and cultural clashes while pursuing equality as part of the promise of a democratic society Le visage de la mondialisation Jacques Audinet,2007 Yellow Peril! John Kuo Wei Tchen,Dylan Yeats,2014-02-11 From invading hordes to enemy agents a great fear haunts the West The yellow peril is one of the oldest and most pervasive racist ideas in Western culture dating back to the birth of European colonialism during the Enlightenment Yet while Fu Manchu looks almost quaint today the prejudices that gave him life persist in modern culture Yellow Peril is the first comprehensive repository of anti Asian images and writing and it surveys the extent of this iniquitous form of paranoia Written by two dedicated scholars and replete with paintings photographs and images drawn from pulp novels posters comics theatrical productions movies propagandistic and pseudo scholarly literature and a varied world of pop culture ephemera this is both a unique and fascinating archive and a modern analysis of this crucial historical formation **The Anthem Companion to Alexis de Tocqueville** Daniel Gordon,2019-05-30 The Anthem Companion to Alexis de Tocqueville contains original interpretations of Tocqueville s major writings on democracy and revolution as well as his lesser known writings on colonies prisons and minorities The Introduction by Daniel Gordon discusses how Tocqueville was canonized during the Cold War and the need to reassess the place of Tocqueville s voice in the conversation of post Marxist social theory Each chapter that follows compares Tocqueville s ideas on a given subject with those of other major social theorists including Bourdieu Dahl Du Bois Foucault L vi Strauss and Marx This comprehensive volume is based on the idea that Tocqueville was not merely a founder or precursor whose ideas have been absorbed into modern social science The broad questions that Tocqueville raised his comparative vision and his unique vocabulary and style can inspire deeper thinking in the social sciences today National Union Catalog ,1956 Includes entries for maps and atlases
