The Oxford Edition of the Sermons of John Donne, Volume VII Peter McCullough, Erica Longfellow, 2024-12-11 Volume VII of The Oxford Edition of the Sermons of John Donne gathers sermons preached by Donne at different venues for the related liturgical occasions of marriages christenings and the churching of women after childbirth The volume contains ten sermons seven of them undated and in the case of the christening sermons also for parties unknown one of the two churching sermons survives only in an authorially revised state as two separate but obviously coeval sermons Longfellow and McCullough establish that these sermons were preached across almost the whole of Donne s preaching career from among his earliest ca 1615 16 to 1627 four years before his death In each case an authoritative text has been established by freshly collating multiple copies of the seventeenth century print editions as well as multiple manuscript copies which predate the print witnesses For the first time these sermons appear with full critical apparatus The Introduction provides the first dedicated account of the place of sermons in the social liturgical and theological contexts of these occasions in post Reformation England A headnote to each sermon describes its textual state and supplies local historical social and intellectual context and suggestions for further reading Extensive commentaries document Donne s use of sources both acknowledged and unacknowledged translate passages in foreign languages and gloss important and unfamiliar words Although largely neglected by previous scholarship these sermons emerge here as unique the only known sermons for churchings challenging for views on women and marriage more conservative than many of Donne s contemporaries and as evidence of Donne s Calvinist sacramental theology and his anti Catholicism They are also fine examples of Donne s skill in crafting emotionally compelling sermons suited to the unique demands of both occasion and auditory

James Champlin Fernald,1907 **British Critic** ,1813 **Sport and Postcolonialism** John Bale,Mike Cronin,2020-05-27 Compared with modes of representation such as literature drama poetry and dance the world of sport has been largely neglected in postcolonial studies At both local and global levels however sport has been profoundly affected by the colonial legacy How are individual nations and different sporting cultures coping with this legacy What does the end of colonialism mean within particular states and sports How is postcolonialism linked with struggles of race and identity Sport was a major tool of colonial power and postcolonialism manifests itself in the modern sporting world in several ways including the huge number of world class athletes from former European empires and the exploitation of child workers in postcolonial nations by the sporting goods industries Many former colonial states place considerable importance on elite sport as a form of representation yet a small number of such states oppose sport in its western form This book explores the wealth of issues and experiences that comprise the postcolonial sporting world and questions whether sport can act as a form of resistance in postcolonial states and if so how such resistance might manifest itself in the rule bound culture of sport Its novel approach and topical focus makes this book essential reading for anyone interested in contemporary sports postcolonialism race and ethnic studies [The Psychology of the Emotions](#) Th. Ribot,2023-11-17 In *The Psychology of the Emotions* Th Ribot embarks on an incisive exploration of the complex interplay between the mind and emotions positioning the work at the intersection of psychology and philosophy Ribot employs a clear analytical literary style meticulously dissecting emotional phenomena through a scientific lens By challenging contemporaneous theories and merging empirical findings with philosophical inquiries he offers profound insights into the nature of emotions arguing for their foundational role in human consciousness and behavior while situating his discourse within the context of 19th century psychological thought Th Ribot a pioneering French psychologist and philosopher significantly contributed to the development of modern psychological theories His interest in the emotional life stemmed from his academic background in both psychology and philosophy alongside personal experiences that shaped his understanding of human affect Ribot s work reflects a broader intellectual movement aiming to establish psychology as a rigorous scientific discipline drawing from natural sciences to unravel the intricacies of human sentiment This authoritative text is recommended for scholars and enthusiasts alike providing a comprehensive foundation for the study of emotions in
