The Art of Focused Conversation for Schools, Third Edition Jo Nelson, 2013-08-20 Why don't kids learn? Why can't students do higher order thinking? Why do educators have endless staff meetings with few results? How can parents and teachers communicate better? The pressure upon educators to teach more to a wider range and number of students with decreasing resources and supports makes it urgent to find tools to answer such questions. The Art of Focused Conversation for Schools demonstrates how the Focused Conversation method, widely used in organizations and businesses, can effectively be used in a K-12 educational setting. Each section deals with interactions among students, staff, and parents and elaborates with over 100 sample conversations designed to make learning more meaningful, prevent and solve problems, and make communications in meetings more effective. Appendices showcase integrated curriculum examples where conversations have been used in unique combinations and list sample questions for each level of the conversation method. With a bibliography and index included and patterned after its highly successful predecessor The Art of Focused Conversation: 100 Ways to Access Group Wisdom in the Workplace, this book will be welcomed by parents, students, educators, and school administrators everywhere. The Institute of Cultural Affairs has over 40 years' experience in more than 32 nations. A unique facilitation research and training organization, ICA Canada has provided participatory skills to many thousands of people worldwide.

Assessing and Grading Student Achievement Glen E. Robinson, James M. Craver, 1989 Recent Perspectives on Early Childhood Education and Care in Canada Larry Prochner, 2012-01-01 Early childhood education is critical for preparing children for success in formal school settings and as such is a major concern throughout the world. This volume brings together ground-breaking research in this area to help practitioners, students, policy makers, curriculum designers, and intervention program developers understand the latest ideas and advances in the field. Recent Perspectives on Early Childhood Education and Care in Canada centres on three key themes. The first provides a survey of historical social policy, economic and provincial regulations and policies related to early childhood education and care. The second focuses on issues related to children's learning, curriculum, and teachers. The final theme addresses recent developments in government involvement in early childhood education and care that are unique to Canada. The contributors to this volume demonstrate the pressing need that exists to further public discussion on early childhood education to help policymakers shape better decisions for Canadian families.
