Transparency Daniel Jutte, 2023-03-28 A wide ranging illustrated history of transparency as told through the evolution of the glass window Transparency is a mantra of our day It is key to the Western understanding of a liberal society We expect transparency from for instance political institutions corporations and the media But how did it become such a powerful and global idea From ancient glass to Apple s corporate headquarters this book is the first to probe how Western people have experienced conceptualized and evaluated transparency Daniel Jutte argues that the experience of transparency has been inextricably linked to one element of Western architecture the glass window Windows are meant to be unnoticed Yet a historical perspective reveals the role that glass has played in shaping how we see and interpret the world A seemingly pure material glass has been endowed throughout history with political social and cultural meaning in manifold and sometimes conflicting ways At the same time Jutte raises questions about the future of vitreous transparency its costs in terms of visual privacy but also its ecological price tag in an age of accelerating climate change *Transparency and Critical Theory* Jorge I. Valdovinos, 2022-02-26 This book takes an interdisciplinary approach to the critique of contemporary ideology offering an innovative genealogy of one of its most fundamental discursive manoeuvres the ideological effacement of mediation Providing a comprehensive historical revision of media from the Greeks to the Internet this book identifies several critical junctures at which the tension between visibility and invisibility has overlapped with conceptions of neutrality a tension best incarnated in today s use of the word transparency Then it traces this term s evolving semantic constellation through a variety of intellectual discourses exposing it as a key operator in the revaluation of ideals sensibilities and modalities of perception that lie at the core of our contemporary attention based economy Global Forum on Transparency and Exchange of Information for Tax Purposes Peer Reviews: Singapore 2011 Phase 1: Legal and Regulatory Framework OECD, 2011-06-07 This publication reviews the quality of Singapore s legal and regulatory framework for the exchange of information for tax purposes **The semantic transparency of English compound nouns** Martin Schäfer, 2018-01-22 What is semantic transparency why is it important and which factors play a role in its assessment This work approaches these questions by investigating English compound nouns The first part of the book gives an overview of semantic transparency in the analysis of compound nouns discussing its role in models of morphological processing and differentiating it from related notions After a chapter on the semantic analysis of complex nominals it closes with a chapter on previous attempts to model semantic transparency The second part introduces new empirical work on semantic transparency introducing two different sets of statistical models for compound transparency In particular two semantic factors were explored the semantic relations holding between compound constituents and the role of different readings of the constituents and the whole compound operationalized in terms of meaning shifts and in terms of the distribution of specific readings across constituent families All semantic annotations used in the book are freely available Transparency and Reflection Matthew Boyle, 2024 The maxim

Know thyself has been central to philosophy since antiquity but today there is widespread skepticism both within philosophy and in our intellectual culture at large about the extent to which we can truly know our own minds and the extent to which self knowledge matters to our lives Transparency and Reflection argues that although we can be mistaken about ourselves in many respects such mistakes occur against the background of a fundamental self understanding that is necessarily available to any human subject To deny this essential capacity for self understanding Matthew Boyle argues is to leave out the very thing that makes us human

Cultures of Transparency Stefan Berger,Susanne Fengler,Dimitrij Owetschkin,Julia Sittmann,2021-04-18 This volume addresses the major questions surrounding a concept that has become ubiquitous in the media and in civil society as well as in political and economic discourses in recent years and which is demanded with increasing frequency transparency How can society deal with increasing and often diverging demands and expectations of transparency What role can different political and civil society actors play in processes of producing or preventing transparency Where are the limits of transparency and how are these boundaries negotiated What is the relationship of transparency to processes of social change as well as systems of social surveillance and control Engaging with transparency as an interrelated product of law politics economics and culture this interdisciplinary volume explores the ambiguities and contradictions as well as the social and political dilemmas that the age of transparency has unleashed As such it will appeal to researchers across the social sciences and humanities with interests in politics history sociology civil society citizenship public policy criminology and law

This Obscure Thing Called Transparency Emmanuel Alloa,2022-03-31 The paradoxical logic of transparency and mediation Transparency is the metaphor of our time Whether in government or corporate governance finance technology health or the media it is ubiquitous today and there is hardly a current debate that does not call for more transparency But what does this word actually stand for and what are the consequences for the life of individuals Can knowledge from the arts and its play of visibility and invisibility tell us something about the paradoxical logics of transparency and mediation This Obscure Thing Called Transparency gathers contributions by international experts who critically assess the promises and perils of transparency today

Ghosts of Transparency Michael R. Doyle,Selena Savić,Vera Bühlmann,2019-09-23 In this book the editors focus on architecture and communication from various different perspectives taking into account that the term architecture is used for buildings as well as in the context of computer software Data and software also impact on our cities raw data however do not convey any information in order to generate information and communication they have to be organized and must make sense to the reader The contributions avoid clear separation of the various communication spheres

of their disciplines. Instead they use the wide range of approaches to explore meanings an ambitious aim that leaves the destination wide open. The reader is invited to share in this adventure.

Transparency in Insurance Contract Law

Pierpaolo Marano, Kyriaki Noussia, 2020-03-11. This Volume of the AIDA Europe Research Series on Insurance Law and Regulation focuses on transparency as the guiding principle of modern insurance law. It consists of chapters written by leaders in the respective field who address transparency in a range of civil and common law jurisdictions along with overview chapters. Each chapter reviews the transparency principles applicable in the jurisdiction discussed. Whether expressly or impliedly, all jurisdictions recognize a duty on the part of the insured to make a fair presentation of the risk when submitting a proposal for cover to the insurers, although there is little consensus on the scope of that duty. Disputed matters in this regard include whether it is satisfied by honest answers to express questions or whether there is a spontaneous duty of disclosure, whether facts relating to the insured's character as opposed to the nature of the risk itself are to be presented to the insurers, the role of insurance intermediaries in the placement process and the remedy for breach of duty. Transparency is, however, a much wider concept. Potential policyholders are in principle entitled to be made aware of the key terms of coverage and to be warned of hidden traps such as conditions precedent, average clauses and excess provisions, but there are a range of different approaches. Some jurisdictions have adopted a soft law approach using codes of practice for pre-contract disclosure, while other jurisdictions employ the rather nebulous duty of utmost good faith. Leaving aside placement, transparency is also demanded after the policy has been incepted. The insured is required to be transparent during the claims process. There is less consistency in national legislation regarding the implementation of transparency by insurers in the context of handling claims.

Global Forum on Transparency and Exchange of Information for Tax Purposes Peer Reviews: Isle of Man 2011 Combined: Phase 1 + Phase 2 OECD, 2011-06-07. This publication reviews the quality of the Isle of Man's legal and regulatory framework for the exchange of information for tax purposes as well as its implementation and effectiveness.

Bible Translation: An Introductory Course in Translation Principles, Fourth Edition Katharine Barnwell, 2022-03-07. Bible Translation: An Introductory Course in Translation Principles continues to provide crucial practical training for those preparing to translate the Bible or contribute to Bible translation in other ways. The fourth edition of this classic textbook is a leading voice in addressing the following developments in the Bible translation world: The priority of oral communication and its value in drafting, testing and polishing draft translations; The availability of software and online resources specifically designed for Bible translation exercises and assignments; include practice in the use of these resources; The increase in Old Testament translation projects worldwide; more examples and exercises from the Old Testament are included; The value of partnership and teamwork in translation projects; recognizing the different gifts, skills and roles of those involved; helping each team member to serve effectively as a member of a team; The involvement of local churches and community in the translation process; planning for local responsibility, ownership and sustainability as fully as possible in each

translation project The importance of ongoing training for translators including training translators to train others and preparing capable translators to serve as translation consultants in due time The materials are designed for the classroom but are also suitable for self study for example by those who are already qualified in biblical languages and exegetical skills and are training as translation consultants A companion Teacher's Manual is also available Documents references and links to videos and other published works can be found online at publications.sil.org/bibletranslation_additionalmaterials Bible Translation An Introductory Course in Translation Principles has previously been translated in whole or in part into French Hindi Indonesian Kannada Malagasy Malayalam Marathi Oriya Portuguese Russian Slovak Spanish Swahili Tamil and Telugu For information on translation or republishing contact sil.org/resources/publications/about/contact Configurations of the architectural envelope , *Transparency in Insurance Regulation and Supervisory Law* Pierpaolo Marano, Kyriaki Noussia, 2021-03-30 This volume focuses on transparency as the guiding principle for insurance regulation and supervisory law All chapters were written by experts in their respective fields who address transparency in a wide range of European and non European jurisdictions Each chapter reviews the transparency principles applicable in the jurisdiction discussed While the European jurisdictions reflect different facets of the principle as emerging from EU law on insurance the principle has developed quite differently in other jurisdictions **Paradata and Transparency in Virtual Heritage** Anna Bentkowska-Kafel, Hugh Denard, 2016-05-13 Computer Generated Images CGIs are widely used and accepted in the world of entertainment but the use of the very same visualization techniques in academic research in the Arts and Humanities remains controversial The techniques and conceptual perspectives on heritage visualization are a subject of an ongoing interdisciplinary debate By demonstrating scholarly excellence and best technical practice in this area this volume is concerned with the challenge of providing intellectual transparency and accountability in visualization based historical research Addressing a range of cognitive and technological challenges the authors make a strong case for a wider recognition of three dimensional visualization as a constructive intellectual process and valid methodology for historical research and its communication Intellectual transparency of visualization based research the pervading theme of this volume is addressed from different perspectives reflecting the theory and practice of respective disciplines The contributors archaeologists cultural historians computer scientists and ICT practitioners emphasize the importance of reliable tools in particular documenting the process of interpretation of historical material and hypotheses that arise in the course of research The discussion of this issue refers to all aspects of the intellectual content of visualization and is centred around the concept of paradata Paradata document interpretative processes so that a degree of reliability of visualization outcomes can be understood The disadvantages of not providing this kind of intellectual transparency in the communication of historical content may result in visual products that only convey a small percentage of the knowledge that they embody thus making research findings not susceptible to peer review and rendering them closed to further discussion It is argued therefore that

paradata should be recorded alongside more tangible outcomes of research preferably as an integral part of virtual models and sustained beyond the life span of the technology that underpins visualization

Integrity, Transparency and Corruption in Healthcare & Research on Health, Volume II Kymet Tunca Çalıyurt,2023-11-02 This book continues the discussion from Volume I on the risks organizations face in order to succeed with a special focus on the challenges brought on by the COVID 19 virus crisis Taking on an interdisciplinary focus the book brings together research from academics and practitioners from all over the world Topics considered range from corruption in the health sector and COVID 19 eHealth efforts of countries during the pandemic and fiscal policies and transparency in data sharing for effective management of the pandemic to a path forward to achieve health for all

Spatial Transparency in Architecture Camilo Rosales,2022-08-12 This volume explores the concept of spatial transparency a form of spatial continuity that articulates depth through permeable layered or porous three dimensional organizations where interstitial light is present Although transparency is a concept largely associated with the modern movement the use of glazed components and twentieth century architectural discourse spatial transparency is a form of depth awareness through intermediate domains takes place through the interstitial fabric of a structure and occurs when several consecutive domains are spatially and visually connected These immersive environments invite active participation not as one way communication but as a series of visual and experiential exchanges interdependencies and relationships Divided into four parts the book examines spatial transparency in massive opaque constructions light constructions glass assemblies and hybrid systems It analyzes both the phenomenon of visual connectivity and continuity through intermediate spaces and spatial transparency s capacity for promoting and enabling graded interflowing environmental transactions Using historical and contemporary examples it catalogs some of the most common and recurring configurations that manifest these characteristics Over 20 international case studies from the Americas to Japan are presented to argue that environments exist in porous mediums and that by studying the openings voids light and materials of layered and or permeable organizations important insights about space making can be revealed Written for students and academics this book explores various expressions of spatial transparency in architecture and helps connect their abstract ideas with significant built works analytical drawings and comparison charts
