reading in Japanese In Acts of Reading the authors set out to explore what reading is for Japanese as a language and how
instructors should teach it to students of Japanese They seek answers to two questions What are the aspects of reading in
Japan as manifested in Japanese society What L2 second language reading problems are specific to Japanese In answering
the first and related questions the authors conclude that reading is a socially motivated purposeful act that is savored and
becomes a part of people s lives Reading instruction in Japanese therefore should include teaching students how to work with
text as the Japanese do in Japanese society The second question relates more directly to traditional concerns in L2 reading
The authors begin with a general theory of reading They then offer a welcome glimpse into the rich and complex perspectives
