but this knowledge is then also of great importance for assessing ourselves This brings up the practical relevance we are not only surrounded by animals we live with animals we live from animals Yet we see ourselves as separate from them in important ways Consciousness language and rationality are essential characteristics with which we justify our human uniqueness and thus our superiority and ultimately our right to dominate and use animals in many ways If an animal can feel pain we feel obliged to avoid inflicting unnecessary pain on it But yet we do not accord it the special inherent value and dignity associated with consciousness and rationality This has far reaching consequences for human action and the coexistence of humans and animals
