Measures of Spirituality/Religiosity—Description of Concepts and Validation of Instruments Arndt Büssing, 2019-04-23 Why do we need more questionnaires to measure aspects of spirituality religiosity when we already have so many well tried instruments in use One answer is that research in this field is growing and that new research questions continuously do arise Several of these new questions cannot be easily answered with the instruments designed for previous questions The field is expanding and consequently the research topics Meanwhile several multidimensional instruments were developed which cover existential prosocial religious and non religious forms of spirituality hope peace and trust and several more The disadvantage of these instruments is the fact that some are conceptually broad and often rather unspecific but they might be suited quite well for culturally and spiritually diverse populations when the intention is to compare such diverse groups This is the reason why more research on new instruments is needed as can be found in this Special Issue and to stimulate a critical debate about their pros and cons

Bioethics, Public Reason, and Religion Leonard M. Fleck, 2022-09-01 Can religious arguments provide a reasonable justified basis for restrictive coercive public policies regarding numerous ethically and politically controversial medical interventions such as research with human embryos pre

implantation genetic diagnosis or using artificial wombs With Rawls we answer negatively Liberally reasonable policies must address these controversial technologies on the basis of public reasons accessible to all even if not fully agreeable by all Further public democratic deliberation requires participants to construct these policies as citizens who are agnostic with respect to the truth of all comprehensive doctrines whether secular or religious The goal of these deliberations is practical namely to identify reasonable policy options that reflect fair terms of cooperation in a liberal pluralistic society Further religious advocates may participate in formal policymaking processes as reasonable liberal citizens Finally public reason evolves through the deliberative process and all the novel technological challenges medicine generates for bioethics and related public policies

Days of Awe Atalia Omer,2019-05-21 For many Jewish people in the mid twentieth century Zionism was an unquestionable tenet of what it meant to be Jewish Seventy years later a growing number of American Jews are instead expressing solidarity with Palestinians questioning old allegiances to Israel How did that transformation come about What does it mean for the future of Judaism In Days of Awe Atalia Omer examines this shift through interviews with a new generation of Jewish activists rigorous data analysis and fieldwork within a progressive synagogue community She highlights people politically inspired by social justice campaigns including the Black Lives Matter movement and protests against anti immigration policies These activists she shows discover that their ethical outrage at US policies extends to Israel s treatment of Palestinians For these American Jews the Jewish history of dispossession and diaspora compels a search for solidarity with liberation movements This shift produces innovations within Jewish tradition including multi racial and intersectional conceptions of Jewishness and movements to reclaim prophetic Judaism Charting the rise of such religious innovation Omer points toward the possible futures of post Zionist Judaism

When the State Winks Michal

Kravel-Tovi,2017-09-05 Religious conversion is often associated with ideals of religious sincerity But in a society in which religious belonging is entangled with ethnonational citizenship and confers political privilege a convert might well have multilayered motives Over the last two decades mass non Jewish immigration to Israel especially from the former Soviet Union has sparked heated debates over the Jewish state s conversion policy and intensified suspicion of converts sincerity When the State Winks carefully traces the performance of state endorsed Orthodox conversion to highlight the collaborative labor that goes into the making of the Israeli state and its Jewish citizens In a rich ethnographic narrative based on fieldwork in conversion schools rabbinic courts and ritual bathhouses Michal Kravel Tovi follows conversion candidates mostly secular young women from a former Soviet background and state conversion agents mostly religious Zionists caught between the contradictory demands of their nationalist and religious commitments She complicates the popular perception that conversion is a wink wink relationship in which both sides agree to treat the converts pretenses of observance as real Instead she demonstrates how their interdependent performances blur any clear boundary between sincere and empty conversions Alongside detailed ethnography When the State Winks develops new ways to think about the complex connection between religious conversion and the nation state Kravel Tovi emphasizes how state power and morality is managed through winking the subtle exchanges and performances that animate everyday institutional encounters between state and citizen In a country marked by tension between official religiosity and a predominantly secular Jewish population winking permits the state to save its Jewish face
