PLEASE READ COMPLETELY BEFORE BEGINNING

Congratulations on your purchase of the AutoCommand® Professional Series Remote Car Starter. The AutoCommand® Professional Series Remote Car Starter system allows you to start the car by remote control from the comfort of your home or office in order to cool it down in the summer or heat it up in the winter.

AutoCommand® is for **automatic transmission/fuel injected vehicles only**. It is an extremely sophisticated system with multiple built-in safety and security features.

AutoCommand® Professional Series Remote Car Starter:

- Will start your car by remote control from up to 1,000 feet away, and run the heater, defroster, or air conditioner to warm up or cool down the car.
- Is designed to start the car if it is in park, and only if the hood is closed.
- Has Lock, Unlock and Trunk keyless entry features.
- Will attempt to start the car for up to six seconds, but no longer (to avoid damage to the starter motor). Should the car not start, or if it stalls after starting, the remote starter will make two further attempts to start it.
- Has alarm functions including starter kill which becomes active when the doors are locked with the remote control.
- Will not let the car be driven without the key in the ignition.
- Shuts itself off automatically after 10 or 15 minutes (programmable) if you forget to come out to your car.

- Will shut off if the brake pedal is pushed, the hood is opened, or the transmission is shifted out of park - unless the key is in the ignition and in the "run" position.
- Allows you to remove the key while leaving the car running with the doors locked for up to 10 or 15 minutes utilizing the Quick Stop™ Option. (See Separate User Tip Sheet)
- Starts the car automatically whenever the temperature drops below 0°F (-18°C), or if the battery voltage drops below 11 volts when the Cold Start™ Option is used. (See Separate User Tip Sheet)
- Has the Daily Start™ feature which allows the vehicle to be started at the same time the following day. (See Separate User Tip Sheet)
- Is quality engineered, microprocessor controlled, and made in the USA to provide many years of reliable use.
- Comes with a Limited Lifetime Warranty.

Tools required to install the AutoCommand® Professional Series System

We highly recommend that all connections be soldered for reliability.

Installation Services Soren Rasmussen,Michael Iversen,2011-04-08 BRIEF DESCRIPTION OF CONTENT The authors have
 been working with Remote Installation Services since its birth in 1999 We are really enthusiastic about working with it From
 their experiences from very different customers with very different requirements to their Windows infrastructure
 environment they have gained a tremendous deal of experience and in depth knowledge with Remote Installation Services
 that other people can benefit from This includes basic understanding a lot of theory and best practices but also how you can
 stretch Remote Installation Services to really do what any system or network administrator would require This information is
 essential for anyone wishing to implement Remote Installation Services and use the advanced features and tools it contains
 There is much more than up grades adding and deleting programs from a central administrator that can be done In addition

it can save the cost adding a costly third party software package like Alteris to the enterprise network This is the reason that the authors are now gathering all the experience and knowledge and focusing on forming a single point of entry to everything you must know about Remote Installation Services in form of a book Note based on my TRS and reviewers comments the book will be over 320 pages as authors add numerous consulting client examples and illustrations UNIQUE FEATURE Book is excellent companion to Windows and Exchange series and WMI books by Lissour Authors are top quality IBM Consultants Gives Network and Systems Administrators real tools to manage upgrades program modifications and system and security related tools Presents a balance of theory and methods with best practices the authors have developed in their consulting work Shows how an enterprise can save the cost adding a costly third party software package like Alteris to the enterprise network *Technical Manual* United States Department of the Army,1954 *QuoteWerks User Manual* ,
