Mojtaba Mahdavi, 2016-02-24 The rise of popular social movements throughout the Middle East North Africa Europe and North America in 2011 challenged two hegemonic discourses of the post Cold War era Francis Fukuyama's The End of History and Samuel Huntington's The Clash of Civilizations The quest for genuine democracy and social justice and the backlash against the neoliberal order is a common theme in the global mass protests in the West and the East This is no less than a discursive paradigm shift a new beginning to the history a move towards new alternatives to the status quo This book is about difference and dialogue it embraces The Dignity of Difference and promotes dialogue However it also demonstrates the limits of dialogue as a useful and universal approach for resolving conflicts particularly in cases involving asymmetric and unequal power relations The distinguished group of authors suggests in this volume that there is a third way of addressing global tensions one that rejects the extremes of both universalism and particularism This third way is a radical call for an epistemic shift in our understanding of us other and good evil a radical approach toward accommodating difference as well as embracing the plural concept of the good The authors strengthen their alternative approach with a practical policy guide by challenging existing policies that either exclude or assimilate other cultures that wage the constructed global war on terror and that impose a western neo liberal discourse on non western societies This important book will be essential reading for all those studying civilizations globalization foreign policy peace and security studies multiculturalism and ethnicity regionalism global governance and international political economy      *The Truth about the Killing of Daniel Yock*, 1994 Records the campaign for a public hearing initiated by the Socialist Labour League into the death of Daniel Yock reports on the public hearing findings      For Canada's Sake Gary Richard Miedema, 2005 This study uses the Centennial Celebrations of 1967 and Expo 67 to explore how religion informed Canadian nation building and national identities in the 1960s      Restorative Justice in Legal Systems, Education and the Community Dr. Sandra Pavelka, Anne Seymour, 2024-08-21 Restorative justice realized in states and communities across the world is viewed as an innovative framework and growing global social movement providing a foundation for fairness and accountability in laws policies and practices Its application is integrated in legal systems educational settings and the workplace among others A wide range of expert voices in the restorative justice field come together in this book culminating in an insightful and critical assessment of restorative justice With authors from around the globe the international application of restorative justice is evidenced with case studies and examples of the impact of restorative practices and various models Relational practice its implementation its effects and its potential to grow is at the heart of each of the chapters thoughtfully arranged to guide the

Australia. Parliament. House of Representatives, 1994 **More than Just Games** Richard Menkis, Harold Troper, 2015-05-27 Held in Germany the 1936 Olympic Games sparked international controversy Should athletes and nations

boycott the games to protest the Nazi regime More Than Just Games is the history of Canada's involvement in the 1936 Olympics It is the story of the Canadian Olympic officials and promoters who were convinced that national unity and pride demanded that Canadian athletes compete in the Olympics without regard for politics It is the story of those Canadian athletes mostly young and far more focused on sport than politics who were eager to make family friends and country proud of their efforts on Canada's behalf And finally it is the story of those Canadians who led an unsuccessful campaign to boycott the Olympics and deny Nazi Germany the propaganda coup of serving as an Olympic host Written by two noted historians of Canadian Jewish history Richard Menkis and Harold Troper More than Just Games brings to life the collision of politics patriotism and the passion of sport on the eve of the Second World War
