**Metaphor, and Aby Warburg's Atlas of Images** Christopher D. Johnson, 2012-09-15 The work of German cultural theorist and art historian Aby Warburg 1866 1929 has had a lasting effect on how we think about images This book is the first in English to focus on his last project the encyclopedic Atlas of Images Mnemosyne Begun in earnest in 1927 and left unfinished at the time of Warburg s death in 1929 the Atlas consisted of sixty three large wooden panels covered with black cloth On these panels Warburg carefully intuitively arranged some thousand black and white photographs of classical and Renaissance art objects as well as of astrological and astronomical images ranging from ancient Babylon to Weimar Germany Here and there he also included maps manuscript pages and contemporary images taken from newspapers Trying through these constellations of images to make visible the many polarities that fueled antiquity s afterlife Warburg envisioned the Atlas as a vital form of metaphoric thought While the nondiscursive frequently digressive character of the Atlas complicates any linear narrative of its themes and contents Christopher D Johnson traces several thematic sequences in the panels By drawing on Warburg s published and unpublished writings and by attending to Warburg s cardinal idea that pathos formulas structure the West s cultural memory Johnson maps numerous tensions between word and image in the Atlas In addition to examining the work itself he considers the literary philosophical and intellectual historical implications of the Atlas As Johnson demonstrates the Atlas is not simply the culmination of Warburg s lifelong study of Renaissance culture but the ultimate expression of his now literal now metaphoric search for syncretic solutions to the urgent problems posed by the history of art and culture Collected Writings: Rembrandt Otto Benesch, 1970 **Rembrandt and Dutch Portraiture** David
