

RENAULT CARD: deadlocking

If the vehicle is equipped with a deadlocking function, this allows you to lock the opening elements and to prevent the doors from being unlocked using the interior handles (for example, by breaking the window and then trying to open the door from the inside).

Never use deadlocking if someone is still inside the vehicle.

To activate deadlocking

You can choose between two deadlocking activation modes:

- press button 2 twice in quick succession;
- or, press the button on the driver's door handle 2 times in quick succession.

The hazard warning lights flash five times to indicate locking.

To deactivate deadlocking

Unlock the vehicle using button 1 on the REMAULT card.

The hazard warning lights flash once to indicate that the doors have been unlocked.

Activating deadlocking also automatically closes the windows and/or the electric sunroof, on equipped vehicles.

After activating the deadlocking function using button 2, remote locking and unlocking in hands-free mode are deactivated.

To reactivate the "hands-free" mode, reset the vehicle.
