Glass Ceilings and 100-hour Couples Karine S. Moe, Dianna J. Shandy, 2010 When significant numbers of college educated American women began in the early twenty first century to leave paid work to become stay at home mothers an emotionally charged national debate erupted Karine Moe and Dianna Shandy a professional economist and an anthropologist respectively decided to step back from the sometimes overheated rhetoric around the so called mommy wars They wondered what really inspired women to opt out and they wanted to gauge the phenomenon s genuine repercussions *Glass Ceilings and 100 Hour Couples* is the fruit of their investigation a rigorous accessible and sympathetic reckoning with this hot button issue in contemporary life Drawing on hundreds of interviews from around the country original survey research and national labor force data Moe and Shandy refocus the discussion of women who opt out from one where they are the object of scrutiny to one where their aspirations and struggles tell us about the far broader swath of American women who continue to juggle paid work and family Moe and Shandy examine the many pressures that influence a woman s decision to resign reduce or reorient her career These include the mismatch between child care options and workplace demands the fact that these women married men with demanding careers the professionalization of stay at home motherhood and broad failures in public policy But Moe and Shandy are equally attentive to the resilience of women in the face of life decisions that might otherwise threaten their sense of self worth Moe and Shandy find for instance that women who have downsized their careers stress the value of social networks of running with a pack of smart women who ve also chosen to emphasize motherhood over paid work

Crack of the Bat James R. Walker, Pat Hughes, 2015-05-01
The crack of the bat on the radio is ingrained in the American mind as baseball takes center stage each summer. Radio has brought the sounds of baseball into homes for almost one hundred years, helping baseball emerge from the 1919 Black Sox scandal into the glorious World Series of the 1920s. The medium gave fans around the country aural access to the first All-Star Game, Lou Gehrig's farewell speech, and Bobby Thomson's Shot Heard Round the World. Red Barber, Vin Scully, Harry Caray, Ernie Harwell, Bob Uecker, and dozens of other beloved announcers helped cement the love affair between radio and the national pastime. *Crack of the Bat* takes readers from the 1920s to the present, examining the role of baseball in the development of the radio industry and the complex coevolution of their relationship. James R. Walker provides a balanced, nuanced, and carefully documented look at radio and baseball over the past century, focusing on the interaction between team owners, local and national media, and government and business interests, with extensive coverage of the television and Internet ages when baseball on the radio had to make critical adjustments to stay viable. Despite cable television's ubiquity, live video streaming, and social media, radio remains an important medium through which fans engage with their teams. The evolving relationship between baseball and radio intersects with topics as varied as the twenty-year battle among owners to control radio, the development of sports as a valuable media product, and the impact of competing technologies on the broadcast medium. Amid these changes, the familiar sounds of the ball hitting the glove and the satisfying crack of the bat stay the same. Purchase the audio edition.

A Deeper Sickness Margaret Peacock, Erik L. Peterson, 2022-03-08
A harrowing chronicle by two leading historians capturing in real time the events of a year marked by multiple devastations. When we look back at the year 2020, how can we describe what really happened? In *A Deeper Sickness*, award-winning historians Margaret Peacock and Erik Peterson set out to preserve what they call the focused confusion and to probe deeper into what they consider the Four Pandemics that converged around the 12 astonishing months of 2020: Disease, Disinformation, Poverty, Violence. Drs. Peacock and Peterson use their interdisciplinary expertise to extend their analysis beyond the viral science and instead into the social, political, and historical dimensions of this crisis. They consulted with dozens of experts and witnesses from a wide range of fields, from leading epidemiologists and health care workers to leaders of the Black Lives Matter movement, district attorneys, political scientists, philosophers, and more. Their journey revealed a sick country that believed it was well, a violent nation that believed it was peaceful, one that mistook poverty for prosperity and accountability for rebellion. Organized into the journal entries along with dozens of archival images, *A Deeper Sickness* will help readers sift through the chaos and misinformation that characterized those frantic days. It is both an unflinching indictment of a nation that is still reeling and a testament to the power of human resilience and collective memory. Readers can share their story and become a contributing author by visiting an interactive digital museum where the authors have
