calls ring out from bustling marketplaces and martial arts action scenes come to life with the loud clash of swords and the sounds of bodies colliding What is the purpose of these sounds and what is their history In *Sound Rising from the Paper* Paize Keulemans answers these questions by critically reexamining the relationship between martial arts novels published in the final decades of the nineteenth century and earlier storyteller manuscripts He finds that by incorporating imitating and sometimes inventing storyteller sounds these novels turned the text from a silent object into a lively simulacrum of festival atmosphere thereby transforming the solitary act of reading into the communal sharing of an oral performance By focusing on the role sound played in late nineteenth century martial arts fiction Keulemans offers alternatives to the visual models that have dominated our approach to the study of print culture the commercialization of textual production and the construction of the modern reading subject

Oedipal God Meir Shahar, 2015-08-31 *Oedipal God* offers the most comprehensive account in any language of the prodigal deity Nezha Celebrated for over a millennium Nezha is among the most formidable and enigmatic of all Chinese gods In this theoretically informed study Meir Shahar recounts Nezha's riveting tale which culminates in suicide and attempted patricide and uncovers hidden tensions in the Chinese family system In deploying the Freudian hypothesis Shahar does not imply the Chinese legend's identity with the Greek story of Oedipus For one in Nezha's story the erotic attraction to the mother is not explicitly acknowledged More generally Chinese oedipal tales differ from Freud's Greek prototype by the high degree of repression that is applied to them Shahar argues that despite a disastrous father son relationship Confucian ethics require that the oedipal drive masquerade as filial piety in Nezha's story dictating that the child god kill himself before trying to avenge himself upon his father Combining impeccable scholarship with an eminently readable style the book covers a vast terrain It surveys the image of the endearing child god across varied genres from oral and written fiction through theater cinema and television serials to Japanese manga cartoons It combines literary analysis with Shahar's own anthropological field work providing a thorough ethnography of Nezha's flourishing cult Crossing the boundaries between China's diverse religious traditions it tracks the rebellious infant in the many ways he has been venerated by Buddhist monks Daoist priests and possessed spirit mediums whose dramatic performances have served to negotiate individual familial and collective tensions Finally the book offers a detailed history of the legend and the cult reaching back over two thousand years to its origins in India where Nezha began as a mythological being named Nalakara whose sexual misadventures were celebrated in the Sanskrit epics as early as the first centuries BCE Here Shahar reveals the long term impact that Indian mythology has exerted through the medium of esoteric Buddhism upon the Chinese imagination of divinity A tour de force of literary analysis ethnographic research psychological insight and cross cultural investigation *Oedipal God* is a must read for anyone interested in Chinese studies and the historical connection between India and China Shahar's broad reach and engaging approach will appeal to specialists and students in a variety of disciplines including Chinese religion Chinese literature anthropology Buddhist studies psychology Indian studies and cross
