Reynolds,2014-12-02 Example in this ebook Between the 10th and 13th centuries Civilisation withdrew from Egypt and Syria rested for a little space at Constantinople and then passed away to the western climes of Europe From that period these climes have been the grand laboratory in which Civilisation has wrought out refinement in every art and every science and whence it has diffused its benefits over the earth It has taught commerce to plough the waves of every sea with the adventurous keel it has enabled handfuls of disciplined warriors to subdue the mighty armaments of oriental princes and its daring sons have planted its banners amidst the eternal ice of the poles It has cut down the primitive forests of America carried trade into the interior of Africa annihilated time and distance by the aid of steam and now contemplates how to force a passage through Suez and Panama The bounties of Civilisation are at present almost everywhere recognised Nevertheless for centuries has Civilisation established and for centuries will it maintain its headquarters in the great cities of Western Europe and with Civilisation does Vice go hand in hand Amongst these cities there is one in which contrasts of a strange nature exist The most unbounded wealth is the neighbour of the most hideous poverty the most gorgeous pomp is placed in strong relief by the most deplorable squalor the most seducing luxury is only separated by a narrow wall from the most appalling misery The crumbs which fall from the tables of the rich would appear delicious viands to starving millions and yet those millions obtain them not In that city there are in all districts five prominent buildings the church in which the pious pray the gin palace to which the wretched poor resort to drown their sorrows the pawnbroker s where miserable creatures pledge their raiment and their children s raiment even unto the last rag to obtain the means of purchasing food and alas too often intoxicating drink the prison where the victims of a vitiated condition of society expiate the crimes to which they have been driven by starvation and despair and the workhouse to which the destitute the aged and the friendless hasten to lay down their aching heads and die And congregated together in one district of this city in an assemblage of palaces whence emanate by night the delicious sounds of music within whose walls the foot treads upon rich carpets whose sideboards are covered with plate whose cellars contain the choicest nectar of the temperate and torrid zones and whose inmates recline beneath velvet canopies feast at each meal upon the collated produce of four worlds and scarcely have to breathe a wish before they find it gratified Alas how appalling are these contrasts And as if to hide its infamy from the face of heaven this city wears upon its brow an everlasting cloud which even the fresh fan of the morning fails to disperse for a single hour each day And in one delicious spot of that mighty city whose thousand towers point upwards from horizon to horizon as an index of its boundless magnitude stands the dwelling of one before whom all knees bow and towards whose royal footstool none dares approach save with downcast eyes and subdued voice The entire world showers its bounties upon the head of that favoured mortal a nation of millions does homage to the throne whereon that being is exalted The dominion of this personage so supremely blest extends over an empire on which the sun never sets an empire greater than Jenghiz Khan achieved or Mohammed conquered This is the parent of a mighty nation and yet around that parent s seat the children crave for bread To

Reynolds** Anne Humpherys,2017-03-02 G W M Reynolds 1814 1879 had a major impact on the mid Victorian era that until now has been largely unacknowledged A prolific novelist whose work had a massive circulation and an influential journalist and editor he was a man of contradictions in both his life and writing a middle class figure who devoted his life to working class issues but seldom missed a chance to profit from the exploitation of current issues the founder of the radical newspaper Reynolds Weekly as well as a bestselling author of historical romances gothic and sensation novels oriental tales and domestic fiction a perennial bankrupt who nevertheless ended his life prosperously A figure of such diversity requires a collaborative study Bringing together a distinguished group of scholars this volume does justice to the full range of Reynolds s achievement and influence With proper emphasis on new work in the field the contributors take on Reynolds s involvement with Chartism serial publication the mass market periodical commodity culture and the introduction of French literature into British consciousness to name just a few of the topics covered The Mysteries of London the century s most widely read serial receives the extensive treatment this long running urban gothic work deserves Adding to the volume s usefulness are comprehensive bibliographies of Reynolds s own writings and secondary criticism relevant to the study of this central figure in mid nineteenth century Britain [Towards Sherlock Holmes](#) Stephen Knight,2017-01-26 Crime fiction a product of the burgeoning metropolis of the 19th century features specialists who identify criminals to protect an anxious citizenry Before detectives came to play the central role the protagonists tended to be lawyers or other professionals Major English writers like Gaskell Dickens and Collins contributed to the genre Fergus Hume s The Mystery of a Hansom Cab was a best seller in 1887 and American and French authors created new forms This book explores thematic aspects of 19th century crime fiction s complex history including various social and gender roles between different time periods and settings and the imperial elements that made Sherlock Holmes seem dynamically contemporary **American Literature and the Culture of Reprinting, 1834-1853** Meredith L. McGill,2007-04-30 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the

workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s American Literature and the Culture of Reprinting 1834 1853 delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights *Ingaretha M.
