The New Governmental Food Guide Pyramid:

Top 100 Food Plants Ernest Small, 2009 This beautifully illustrated book reviews scientific and technological information about the world's major food plants and their culinary uses An introductory chapter discusses nutritional and other fundamental scientific aspects of plant foods The 100 main chapters deal with a particular species or group of species All categories of food plants are covered including cereals oilseeds fruits nuts vegetables legumes herbs spices beverage plants and sources of industrial food extracts Information is provided on scientific and common names appearance history economic and social importance food uses including practical information on storage and preparation as well as notable curiosities There are more than 3000 literature citations in the book and the text is complemented by over 250 exquisitely drawn illustrations Given the current alarming rise in food costs and increasing risk of hunger in many regions specialists in diverse fields will find this reference work to be especially useful As well those familiar with Dr Small's books or those with an interest in gardening cooking and human health in relation to diet will want to own a copy of this book Publisher's web site

From Label to Table Xaq Frohlich, 2023-10-17 How did the Nutrition Facts label come to appear on millions of everyday American household food products As Xaq Frohlich reveals this legal scientific and seemingly innocuous strip of information can be a prism through which to view the high stakes political battles and development of scientific ideas that have shaped the realms of American health nutrition and public communication By tracing policy debates at the U S Food and Drug Administration Frohlich describes the emergence of our present information age in food and diet markets and examines how powerful government offices inform the public about what they consume From Label to Table explores evolving popular ideas about food diet and responsibility for health that have influenced what goes on the Nutrition Facts label and who gets to decide that

Measured Meals Jessica J. Mudry, 2009-02-18 2009 CHOICE Outstanding Academic Title As nutritional studies proliferate producing more and more knowledge about the connection between diet and health Americans seem increasingly confused about what to eat to stay healthy In *Measured Meals* Jessica J Mudry looks at the language used in the United States to communicate about health and nutrition and reveals its effects on reframing reshaping and controlling what and how Americans eat Analyzing the USDA and American federal food guidelines over the past one hundred years Mudry shows how the language of nutrition has evolved over time She critiques the trend of discussing food in terms of quantification calories vitamins and serving sizes She also examines how organizations such as the USDA attempt to legislate a healthy diet by mandating quantities of food based on measurable nutrients revealing the power of language to make meaning and influence social action
