

The Outsiders

by S. E. Hinton

Please answer the following questions on a separate sheet of paper.

Chapter 1

1. Who are the Socs? Who are the Greasers?

Socs - rich, madras, mustangs, East side

Greasers - poor, t-shirts and jeans, West side

2. How is Pony's relationship with Darry different from his relationship with Soda?

Darry is more like a father-figure to Pony. He loves him, but they argue a lot and he is hard on him. Soda and Pony are friends. He really understands Pony and they have a lot in common.

3. Why is the "gang" so important to Johnny?

He relies on them like family, because his father abuses him and his mother ignores him.

4. Do you think Darry loves Pony? Why does he treat Pony the way he does?

Yes, he does love Pony. He is hard on Pony because he doesn't want him to get in trouble because then the boys would be split up. He wants Pony to have a good life.

5. Explain what Pony means when he says, "I lie to myself all the time". Why do you think people lie to themselves?

He tries to convince himself something is truth. For example, he tries to convince himself that he doesn't care that Darry doesn't love him, but he does care whether or not Darry loves him.

Chapter 2

1. Who are Cherry and Marcia?

Two Socy girls Pony and Johnny picked up at the drive-in.

2. Why is it strange that Cherry and Pony get along so well?

Socs and Greasers shouldn't get along, but Cherry and Pony have a lot in common - sunsets, dreamers, school.

3. According to Two-Bit, what is a "fair fight"? Why don't Socs fight fair?

This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Global Legitimacy Crises addresses the consequences of legitimacy in global governance in particular asking when and how do legitimacy crises affect international organizations and their capacity to rule The book starts with a new conceptualization of legitimacy crisis that looks at public challenges from a variety of actors Based on this conceptualization it applies a mixed methods approach to identify and examine legitimacy crises starting with a quantitative analysis of mass media data on challenges of a sample of 32 IOs It shows that some but not all organizations have experienced legitimacy crises spread over several decades from 1985 to 2020 Following this the book presents a qualitative study to further examine legitimacy crises of two selected case studies the WTO and the UNFCCC Whereas earlier research assumed that legitimacy crises have negative consequences the book introduces a theoretical framework that privileges the activation inherent in a legitimacy crisis It holds that this activation may not only harm an IO but could also strengthen it in terms of its material institutional and decision making capacity The following statistical analysis shows that whether a crisis has predominantly negative or positive effects depends on a variety of factors These include the specific audience whose challenges define a certain crisis and several institutional properties of the targeted organization The ensuing in depth analysis of the WTO and the UNFCCC further reveals how legitimacy crises and both positive and negative consequences are interlinked and that effects of crises are sometimes even visible beyond the organizational borders **Mormonism For Dummies** Christopher Kimball Bigelow, Jana

Ballad of the Bullet Forrest Stuart, 2021-05-04 Drawing on two years of ethnographic fieldwork and over 150 interviews with gang affiliated youth in the Taylor Park neighborhood on Chicago's South Side *Ballad of the Bullet* reveals that those coming of

age in America's poorest neighborhoods are developing new creative and online strategies for making ends meet. Dislocated by the erosion of the crack economy and the splintering of corporatized gangs, these young people exploit the unique affordances of digital social media to capitalize on an emerging online market for urban violence or, more accurately, a market for the representation of urban violence. In the past, violence functioned primarily as a means of social control, allowing urban youth to compete in illegal street markets and defend the social statuses otherwise denied to them by mainstream society. Today, with the rise of platforms like YouTube, Instagram, and Twitter, violence has become a premier cultural commodity in and of itself. By amassing millions of clicks, views, and followers, these young people convert their online displays of violence into vital offline resources, including cash, housing, drugs, sex, and, for a very select few, a ticket out of poverty. Partnership Law Geoffrey Morse, 2010-07-15

The new edition of this established text is a fully updated account of the law of partnerships in a readily accessible and readable form. It is a valuable tool for practitioners who need a readily available source of information on partnership law, as well as students of partnership law. The work explains the essential characteristics of the subject, highlighting difficult and developing areas by reference to both established and modern cases and legislation. In addition to UK authorities, of which there are an increasing number at a high level, it also covers cases from many parts of the Commonwealth that still use the Partnership Act of 1890. New developments, such as the amendments to the law on limited partnerships and changes to the legislative framework of limited liability partnerships, are covered. In essence, the book explains the essential characteristics of the subject through areas such as formation, regulation, and dissolution of partnership, and has incisive commentary that even experienced lawyers find useful. **Roadblocked** Heath Brown, 2024-06-24

Joe Biden and Kamala Harris began their transition to the White House in the most unusual of circumstances: a global pandemic, a sitting president violently refusing to accept the results of the election, and a historic racial reckoning. All posed profound questions about how they would staff large parts of the government and articulate policy remedies to pressing problems in just eleven weeks. Heath Brown's *Roadblocked* is a revelatory look at the seventy days between the election and the inauguration, with a focus on the ways the Biden-Harris transition team sought help and advice to overcome these obstacles. Informed by over 125 exclusive interviews with members of the transition team and a wide cast of other stakeholders, Brown takes readers deep inside the 2020 presidential transition. More than that, *Roadblocked* is also a gripping history of US presidential transitions over the past half century that compares the transition teams of the last four administrations. Biden-Harris transition leaders had a massive team with a complex organizational structure and a stated aim to promote coordination, encourage teamwork, and avoid siloing staff. In the end, however, these aims were foiled by the conditions of the pandemic and steep hierarchies, which both reduced collaboration and information sharing and left many feeling isolated. Despite substantial changes in the Democratic coalition, newly influential groups armed with novel tactics, and great shifts in their political agenda, the Biden-Harris transition did not lead to transformation. *Roadblocked* explains why. *China's*

Homeless Generation Joshua Fan, 2012-05-23 China's Homeless Generation is a study of nearly two million Chinese who were displaced from home in Mainland China to the island of Taiwan. A result of the Chinese civil war between the Chinese Nationalist Party KMT and the Chinese Communist Party CCP, this massive migration began around 1948 and continued for more than a decade. The displacement officially lasted until November 1987 when they were legally allowed to return for the first time in nearly forty years. Collectively referred to as the Homeless Generation, this unique study makes extensive use of these survivors' own voices to formulate a truly fascinating story of a generation of Chinese who found themselves outsiders not just in Taiwan but in the places they called home. Joshua Fan provides a detailed picture of the exodus, the struggle to find a new home in Taiwan both physically and psychologically, and ultimately the experiences and effects of returning to the mainland decades later. This book will be of interest to students and scholars of Chinese history, the Chinese civil war, Chinese Diasporas, and China Studies in general.

Systemic Interventions for Collective and National Trauma Michal Shamai, 2015-09-07 *Systemic Interventions for Collective and National Trauma* explains the theoretical basis for understanding collective and national trauma through the concept of systems theory and gives ways of implementing systems theory in interventions at the micro, mezzo, and macro levels. Particular attention is given to the use of socio-political and cultural aspects of interventions with victims as well as to the ethical codes that social workers and other mental health professionals need to integrate in their work with collective national trauma. Separated into two distinct parts on theory and practice, this volume is appropriate for practitioners as well as students in advanced courses.

Learning with Women in Jail Jill McCracken, 2019-10-21 In this monograph, the ethical implications of engaging in research with vulnerable populations is explored and demonstrates how Community Based Participatory Research (CBPR) both enhances the research while addressing these ethical complexities. Although CBPR encompasses different levels of community engagement, in general, the participants or co-researchers are involved in the formulation of the research questions and methodologies because they are central to the conversation about what should be researched and how. Participants are directly involved in formulating the study problems and finding solutions, and usually the goal is to create social change that can be applied to and potentially transform the community. *Learning with Women in Jail: Creating Community Based Participatory Research* documents the research process to better understand the causes for incarceration and recidivism. The study used a CBPR framework so that the people who had directly experienced incarceration would lead the research as much as possible from framing the research questions and methodologies to data capture and analysis.
