This book takes seriously the political economy and cultural production of this so called global manga produced throughout the Americas Europe and Asia and explores the conditions under which it arises and flourishes what counts as manga and who gets to decide the implications of global manga for contemporary economies of cultural and creative labour the ways in which it is shaped by or mixes with local cultural forms and contexts and ultimately what it means for manga to be authentically Japanese in the first place Presenting new empirical research on the production of global manga culture from scholars across the humanities and social sciences as well as first person pieces and historical overviews written by global manga artists and industry insiders *Global Manga* will appeal to scholars of cultural and media studies Japanese studies and popular and visual culture
