narrative theory and the crucial problematic of how speech and thought are represented in fiction Building on the insights of Ann Banfield's *Unspeakable Sentences* Fludernik radically extends Banfield's model to accommodate evidence from conversational narrative non-fictional prose and literary works from Chaucer to the present Fludernik's model subsumes earlier insights into the forms and functions of quotation and aligns them with discourse strategies observable in the oral language Drawing on a vast range of literature she provides an invaluable resource for researchers in the field and introduces English readers to extensive work on the subject in German as well as comparing the free indirect discourse features of German French and English This study effectively repositions the whole area between literature and linguistics opening up a new set of questions in narrative theory **Thomas Hardy Annual**, 1982 **The Pocket Guide to Classic Books** Kieran Hughes, 2010-06-19 Everything you need to know about classic literature in one handy guide by lecturer Maureen Hughes Covering everything from the authors to the plays themselves and their common themes accessibility is a key selling point with factboxes highlighting key or curious facts about the subject Its size makes it the perfect stocking filler for the Christmas market or at anytime of the year for those wanting more information about what they're reading or studying in a handy pocket sized guide Thomas Hardy Annual No. 1 Norman Page, 1982-12-16 **Books in Print**, 1977

Thomas Hardy - The Mayor of Casterbridge / Jude the Obscure Simon Avery, 2008-11-13 This Reader's Guide analyses the critical history of two of Hardy's major tragic novels from the time of their publication to the present Simon Avery traces the changing critical fortunes of the texts and explores the diverse range of interpretations produced by different theoretical approaches **The Lost Girls** Andrew Radford, 2007 The Lost Girls analyses a number of British writers between 1850 and 1930 for whom the myth of Demeter's loss and eventual recovery of her cherished daughter Kore Persephone swept off in violent and catastrophic captivity by Dis God of the Dead had both huge personal and aesthetic significance This book in addition to scrutinising canonical and less well known texts by male authors such as Thomas Hardy E M Forster and D H Lawrence also focuses on unjustly neglected women writers Mary Webb and Mary Butts who utilised occult tropes to relocate themselves culturally and especially in Butts's case to recover and restore a forgotten legacy the myth of matriarchal origins These novelists are placed in relation not only to one another but also to Victorian archaeologists and especially to Jane Ellen Harrison 1850-1928 one of the first women to distinguish herself in the history of British Classical scholarship and whose anthropological approach to the study of early Greek art and religion both influenced and became transformed by the literature Rather than offering a teleological argument that moves lock step through the decades The Lost Girls proposes chapters that detail specific engagements with Demeter Persephone through which to register distinct literary cultural shifts in uses of the myth and new insights into the work of particular writers **Classics** Library of Congress.
