The Mother Of God Translated:

The Glories of Mary, Mother of God. Translated from the Italian ... by a Catholic Priest, Etc Saint Alfonso Maria de' Liguori, 1833 *The Month of Mary Conceived Without Sin. Translated from the French. With an Introduction by F. W. Faber* Auguste Joseph Alphonse GRATRY, 1860 *The Mother of God in the Theology of Sergius Bulgakov* Walter Nunzio Sisto, 2017-10-25 This book explores the Mariology of one of the most unique and fascinating thinkers in the Russian Orthodox tradition Father Sergius Bulgakov Bulgakov develops the Russian sophianic mariological tradition initiated by Vladimir Soloviev and argues that Mary is the soul of the world or the pneumatological hypostasis Mary is the first and greatest disciple to be adopted by the Holy Spirit By situating Mary within the life and mission of the Holy Spirit Bulgakov maintains the respect and veneration that Orthodox Christians have for Mary but also places Mary squarely within the community of disciples Mary is a model disciple who reveals that the goal of the spiritual life spiritual motherhood In addition this text reveals the relevance and importance of Bulgakov's contribution to the contemporary discussion about the role of Mary in the history of salvation The Virgin mother of good counsel containing an account of the translation of the miraculous picture [at Genazzano] by the author of 'The penitent instructed'. Mary (the virgin.), 1887 A Translation of the Commonitory of St. Vincent of Lirin, ... Based on that of 1837, Etc. [Edited by J. Lynch.] , 1874 *The Mother of God ... Translated by Rev. John A. Otto* Marie Michel PHILIPON, John Aloysius OTTO, 1954 **The Holy Trinity** Katy Leamy, 2015-04-09 This book explores the ways in which Balthasar employs and adapts the thought of Sergei Bulgakov with the Trinitarian theology of Thomas Aquinas to form a kenotic Trinitarian theology that is based on the notion of Personhood as a relation of self-donating love When we look at Balthasar's Trinitarian theology in light of Bulgakov and particularly as a rereading of Bulgakov in light of a Thomistic Trinitarian theology we are not only able to more clearly understand the implications of Balthasar's own Trinitarian theology but also to highlight the beauty and relevance of Bulgakov's Trinitarian contribution This reading of Balthasar's Trinitarian theology read in light of a Thomistic adjustment of Bulgakov provides an excellent point of integration for an ethics that takes into account not only individual virtues and perfection but also the social relational context of human personhood This ethics is based in a concept of human nature bearing the imago Trinitatis and fulfilling that nature through sacramental participation and ethical extension of Christ's self-offering love **Virgin Territory** Julia Kelto Lillis, 2023 Women's virginity held tremendous significance in early Christianity and the Mediterranean world Early Christian thinkers developed diverse definitions of virginity and understood its bodily aspects in surprising often non-anatomical ways Eventually Christians took part in a cross-cultural shift toward viewing virginity as something that could be perceived in women's sex organs Treating virginity as anatomical brought both benefits and costs By charting this change and situating it in the larger landscape of ancient thought Virgin Territory illuminates unrecognized differences among early Christian sources and historicizes problematic ideas about women's bodies that still persist today Scripture and the

Translating Religion Michael DeJonge, Christiane Tietz, 2015-06-26 Translating Religion advances thinking about translation as a critical category in religious studies combining theoretical reflection about processes of translation in religion with focused case studies that are international interdisciplinary and interreligious By operating with broad conceptions of both religion and translation this volume makes clear that processes of translation broadly construed are everywhere in both religious life and the study of religion at the same time the theory and practice of translation and the advancement of translation studies as a field has developed in the context of concerns about the possibility and propriety of translating religious texts The nature of religions

as living historical traditions depends on the translation of religion from the past into the present Interreligious dialogue and the comparative study of religion require the translation of religion from one tradition to another Understanding the historical diffusion of the world's religions requires coming to terms with the success and failure of translating a religion from one cultural context into another Contributors ask what it means to translate religion both textually and conceptually and how the translation of religious content might differ from the translation of other aspects of human culture This volume proposes that questions on the nature of translation find particularly acute expression in the domains of religion and argues that theoretical approaches from translation studies can be fruitfully brought to bear on contemporary religious studies

The Orthodox Icon and Postmodern Art C.A. Tsakiridou, 2024-08-29 This study examines the theories of postmodern visuality and representation and identifies concepts that resonate with Orthodox theology and iconography C A Tsakiridou frees the Orthodox icon from iconological precepts that limit its aesthetic and expressive range The book's key argument is that poststructuralist thought is not alien to Orthodox theology and iconography Dissonance liminality and ambiguity are essential for conveying the paradoxes of Christian faith and recognizing the hagiopneumatic vitality and openness of the Orthodox tradition Perichoresis or coinherence a concept in patristic theology that defines the relationship between the three persons of the Holy Trinity and the two natures of Christ acquires a feminine dimension in the person of the Theotokos Like the ascetical concept of nepsis it has aesthetic implications Intermedial qualities present in iconography photography and cinema help explain how icons become hosts to transcendent realities and how their experience in Orthodox liturgy and devotion has anticipated and resolved the postmodern disorientation of visuality and representation The book will be of interest to scholars working in art history postmodernism philosophy theology religion and gender studies **Bibliotheca Symbolica Ecclesiae Universalis: The Greek and Latin creeds, with translations** Philip Schaff, 1890 **Ante-Nicene Fathers: Translations of the Writings of the Fathers Down to A.D. 325, Volume 8** Alexander Roberts, James Donaldson, A.
