Spiritual Friends Thubten Dondrub, 2017-06-06 A collection of the favorite guided meditations of senior monks and nuns of the International Mahayana Institute of the FPMT. A collection of the favorite guided meditations of senior monks and nuns of the International Mahayana Institute of the FPMT. These meditations center on different Buddhist themes and provide a good resource for the practicing meditator. The book also includes brief spiritual autobiographies that allow the reader to trace each contributor's entry into and study of Tibetan Buddhism. Our true spiritual friends are the positive potentials in our minds which will never, never disappoint us and never desert us. Similarly, the generous and personal meditations offered in this book help us develop these potentials and thus are true friends to whom we can always turn. Likewise, the Sangha, as the ordained followers of the Buddha upon whom the continuity of the Buddha's teachings depend, are spiritual friends who encourage us and inspire us to transform our minds. This unique book, the first from the International Mahayana Institute, contains meditations written by eighteen nuns and monks of the IMI Sangha, as well as an autobiographical essay from each in which these nuns and monks share how they came to the ordained life.

Friendship's Offering, 1855 *Flowers and their friends* Margaret Warner Morley, 2025-03-02 In *Flowers and Their Friends*, Margaret Warner Morley elegantly explores the intricate relationships within the floral kingdom and their broader ecological significance. Written in a lyrical prose style, this work is both informative and poetic, reflecting Morley's deep appreciation for nature. The book immerses the reader in vivid descriptions of various flowers while highlighting the symbiotic relationships they maintain with insects, birds, and the environment, situating it within the broader literary context of naturalism and environmental literature that flourished in the early 20th century. Morley's observations blend scientific detail with an almost reverent spirituality, inviting readers to contemplate the beauty and complexity of nature. Margaret Warner Morley was not only a writer but also a naturalist deeply influenced by her experiences in the natural world. Growing up in a rural setting, her passion for nature led her to study biology and to pursue a career in writing about the intricate wonders of flora and fauna. Her background in observational study and her role as a woman scientist at a time when female voices were often marginalized contributed greatly to the insightful and empowering perspectives found within this book. *Flowers and Their Friends* is a must-read for anyone interested in botany, ecology, or simply the beauty of the world around us. Morley's blend of narrative and science offers a rare glimpse into the interconnectedness of life, making this work both an
