The Occult Nature Of God Questioning The Nature Of Divinity:

The Occult Nature of God Tarl Warwick, 2015-01-07 This work comprises a short series of logical exercises and ruminations on the divine from eight basic categories designated to the divine on the basis of the existence or lack thereof of free will and eternal punishment as well as further contents dedicated to pantheism multiverse theory and similar theories with their own thoughts on the possible nature or absence of divinity One part logical exercise and one part philosophy it seeks to categorize deities according to these attempting to compare and contrast with existing religious groups and beliefs where able God, Value, and Nature Fiona Ellis, 2014 This book takes on board the assumption that we should be

naturalists and argues that the position can accommodate the idea of God Naturalism and theism are no longer logically incompatible and the fashionable atheism of our times is shown to depend upon an unwarranted commitment to scientism and a questionable conception of God
