Brute Force Beginner's Strength System (HC) Ken Gack 'the Ripper'

,2020-11-16 Brute Force Beginner s Strength System HC By Ken Gack the Ripper Often new strength trainees don t know where to begin After years of directing future gym rats to existing training templates Ken Gack imparts his thirty years of experience to develop something better The Russians developed the periodization approach to strength training over five decades ago It has been a staple to strength training programs since that time With the explosion in popularity of powerlifting over the last decade more advanced approaches have begun to edge out periodized based approaches in popularity and performance One of the advantages of periodized approaches is the structure they bring to strength training This is particularly valuable for newer lifters This structure however can become so rigid that it dampens potential strength gains The power of contemporary strength programming is that it provides flexibility to maximize a person s strengths and strengthen their weaknesses The newer methodologies this book focuses on have taken more lifters to world powerlifting championships than any other approach This book seeks to use a basic periodized foundation and incorporate newer methodologies to give it flexibility that enhances its strength training effect **The Universe Of Reality** A. Stinson,2008-06 The Universe of Reality questions many answers and answers many questions There are many scientific and political deceptions forwarded to the general public especially Americans We have been deceived for hundreds of years The comments and theories presented in this writing untangle and decipher the phenomena of light gravity the four forces and many political deceptions The Universe of Reality UOE theories are much closer to the truth than the wild problematic conjectures scientist and politicians present as facts About 90% of accepted theories are wrong and some just straight lies 9% twisted truths and 1% arguable The UOE theories combine the four forces strong weak electromagnetic and gravity into one force the universe of energy These theories challenge older accepted theories and conjectures by well known scientists such as Albert Einstein and Isaac Newton yet the UOE theories are built on the older theories of well known scientists
