Authority, State and National Character Helmut Kuzmics, Roland Axtmann, 2017-03-02 This book presents a cross disciplinary and methodologically innovative study combining historical macro sociology and a sociology of emotions with historical anthropology and cultural studies Drawing on the concepts and theories of Norbert Elias on the Civilizing Process it sets out to pin down and compare qualities that are simultaneously instantly recognisable and highly elusive that is a kind of typical Englishness and of Austrianness that developed contemporaneously in the period up to the First World War The authors chart the development of political authority structures in their varied historical manifestations as well as their affective sedimentation as collective habitus national character comparing England and Austria from 1700 to 1900 as a case study Their argument is based on an analysis of literary sources mainly novels and plays applying a sociology of literature approach Axtmann and Kuzmics argue that the very different national characters formed in England and Austria during this time are related to differences in the affective experience of power and powerlessness in short of authority They show that the formation of national character is determined partly by the different mixture of authoritative external constraints and milder self restraint and partly by the affective experience of human beings in uneven power balances Specifically they show how the formation of the bureaucratic state with strong patrimonial features in Austria and of a self organizing civil society with strong bourgeois liberal features in England resulted both in different institutional structures of authority and in different modes of the affective experience of this authority Employing empirical detail of individual cases and texts to analyse and illuminate broad processes the authors reach a clearer and deeper understanding of seemingly intangible and irrational aspects of national identity

Another Freedom Svetlana Boym, 2018-07-02 The word freedom is so overly used and frequently abused that it is always in danger of becoming nothing but a cliché In *Another Freedom* Svetlana Boym offers us a refreshing new portrait of the age old concept Exploring the rich cross cultural history of the idea of freedom from its origins in ancient Greece to the present day she argues that our attempts to imagine freedom should occupy the space of not only what is but also what if Beginning with notions of sacrifice and the emergence of a public sphere for politics and art Boym expands her account to include the relationships between freedom and liberation modernity and terror and political dissent and creative estrangement While depicting a world of differences she affirms lasting solidarities based on the commitment to the passionate thinking that reflections on freedom require To do so Boym assembles a remarkable cast of characters Aeschylus and Euripides Kafka and Mandelstam Arendt and Heidegger and a virtual encounter between Dostoevsky and Marx on the streets of Paris By offering a fresh look at the strange history of this idea *Another Freedom* delivers a nuanced portrait of freedom one whose repercussions will be felt well into the future

The Athenaeum, 1894 **Translation, Adaptation and Transformation** Laurence Raw, 2012-01-12 In recent years adaptation studies has established itself as a discipline in its own right separate from translation studies The bulk of its activity to date has been restricted to literature and film departments focussing on questions of textual transfer and adaptation of text to film It is however much more interdisciplinary and is not simply a case of transferring content from one medium to another This collection furthers the research into exactly what the act of adaptation involves and whether it differs from other acts of textual rewriting In addition the cultural turn in translation studies has prompted many scholars to consider adaptation as a form of inter semiotic translation But what does this mean and how can we best theorize it What are the semiotic systems that underlie translation and adaptation Containing theoretical chapters and personal accounts of actual adaptations and translations this is an original contribution to translation and adaptation studies which will appeal to researchers and graduate students
