Engagement Design Nelson Zagalo, 2020-03-17 Interactive media designers have been discussing modes to optimize interaction design beyond mere usability With the arrival of Emotional Design followed by the success of the User Experience UX approaches the discussion continued and augmented Experience has become a complex buzzword which is more about the subject's experience than the product and this is why it's difficult or even impossible to define it in a concise manner We propose to move the discussion from Experience towards Engagement to emphasize the design of the relationship between

artefacts contexts and users Engagement asks for a more concrete type of experience with specific needs motives skills and competences which can be more clearly worked into the design of artefacts Engagement also differs from other concepts e.g. fun enjoyment happiness or well being and is open enough to grant freedom to designers in creating their personal world views To push this new approach we offer in this book a full model for the design of engagement in interactive media still believing it can be applied beyond that The model is arranged around what we call the three engagement streams

Innovation as Usual Paddy Miller,Thomas Wedell-Wedellsborg,2013-02-26 Turn team members into innovators Most organizations approach innovation as if it were a sideline activity Every so often employees are sent to Brainstorm Island an off site replete with trendy lectures creative workshops and overenthusiastic facilitators But once they return it s back to business as usual Innovation experts Paddy Miller and Thomas Wedell Wedellsborg suggest a better approach They recommend that leaders at all levels become innovation architects creating an ecosystem in which people engage in key innovation behaviors as part of their daily work In short this book is about getting to a state of innovation as usual where regular employees in jobs like finance marketing sales or operations make innovation happen in a way that s both systemic and sustainable Instead of organizing brainstorming sessions idea jams and off sites that rarely result in success leaders should guide their people in what the authors call the 5 1 keystone behaviors of innovation focus connect tweak select stealthstorm and the 1 persist Focus beats freedom Direct people to look only for ideas that matter to the business Insight comes from the outside Urge people to connect to new worlds First ideas are flawed Challenge people to tweak and reframe their initial ideas Most ideas are bad ideas Guide people to select the best ideas and discard the rest Stealthstorming rules Help people navigate the politics of innovation Creativity is a choice Motivate everyone to persist in the five keystone behaviors Using examples from a wide range of companies such as Pfizer Index Ventures Lonza Go Travel Prehype DSM and others Innovation as Usual lights the way toward embedding creativity in the DNA of the workplace So cancel that off site Instead read Innovation as Usual and put innovation at the core of your business
