Ikeda's philosophy of education offers human revolution, value creation and dialogue as counterweights to the violence lurking in today's classrooms. Where education becomes wisdom based it transforms learners into keen assessors of their inner lives and establishes a foundation for global citizenship. *Special Issue: Soka Approaches in Education Vol 9 No SI (2020)* JIS Contributors, Special Issue Soka Approaches in Education Vol 9 No SI 2020. *Hope and Joy in Education* Isabel Nuñez, Jason Goulah, 2021 Introduces educators and scholars to the legacy and import of Daisaku Ikeda as a singular philosopher, educator and institution builder thus enriching current education discourse. In the process the book illuminates the benefits of cross cultural research and learning by considering the relevance of Ikeda's thought not only to established streams of pedagogy and practice in the Deweyan tradition but also to emerging trends in education research such as ecocritical education and critical race feminism.

Exploring Humanity Mihai I. Spărișu, Jörn Rüsen, 2012-09-11 The old humanistic model aiming at universalism ecumenism and the globalization of various Western systems of values and beliefs is no longer adequate even if it pleads for an ever wider inclusion of other cultural perspectives and for intercultural dialogue In contrast it would be wise to retain a number of its assumptions and practices which it incidentally shares with humanistic models outside the Western world We must now reconsider and remap it in terms of a larger global reference frame This anthology does just that thus contributing to a new field of study and practice that could be called intercultural humanism
