Confident Computing for the Over 50s

Bob Reeves, 2010-03-26 Do you feel that you have been left behind in the technological revolution Assuming no prior knowledge of using a computer this book is written in a practical light hearted and non technical style to take the terror out of the technology Bob Reeves approaches the subject in a highly accessible way focusing on the computer applications of most interest to middle and third agers including correspondence photography shopping online personal budgets and researching your family history It begins with the very basics and ends with an invaluable jargonbuster glossary The book is made up of a series of self contained chapters with the emphasis on what the computer is being used for rather than the software needed For example rather than a chapter on word processing there is a chapter on letter writing rather than desktop publishing there is making a newsletter and making cards for all occasions rather than one on digital photography there is getting photographs on to the computer etc There will be clear instructions supported with screenshots tips and hints throughout This approach sets it apart from other books on basic computer skills as it covers what you really want to do with your computer breaking down any technical barriers and making the book totally relevant to the novice computer user NOT GOT MUCH TIME One five and ten minute introductions to key principles to get you started AUTHOR INSIGHTS Lots of instant help with common problems and quick tips for success based on the author s many years of experience TEST YOURSELF Tests in the book and online to keep track of your progress EXTEND YOUR KNOWLEDGE Extra online articles at www.teachyourself.com to give you a richer understanding of computing FIVE THINGS TO REMEMBER Quick refreshers to help
