## **The Origin Of The Zimbabwean Civilisation:**

*The Origin of the Zimbabwean Civilisation* Robert Gayre of Gayre and Nigg,1972      *The Aesthetics of Ruins* Robert Ginsberg,2021-08-04 This book constructs a theory of ruins that celebrates their vitality and unity in aesthetic experience Its argument draws upon over 100 illustrations prepared in 40 countries Ruins flourish as matter form function incongruity site and symbol Ruin underlies cultural values in cinema literature and philosophy Finally ruin guides meditations upon our mortality and endangered world      *The Origin of the Zimbabwean Civilisation* R. Gayre,1972      *The Zimbabwe Culture* Innocent Pikirayi,Joseph O. Vogel,2002-07-15 Offering a unique and original perspective on the rise and fall of indigenous states of southern Zambezia The Zimbabwe Culture analyzes the long contentious history of the remains of the remarkable cyclopean masonry ranging from mighty capitals of traditional kings to humble farmsteads Forming a cornerstone of the geographical lore of Africa in the seventeenth and eighteenth centuries debate on the origins development and collapse of the Zimbabwe culture has never ceased and with increasing archaeological research over the twentieth century has become more complex Thoroughly examining the growth and decline of pre colonial states on the entire Zimbabwean Plateau and southern Zambezia Dr Pikirayi has contributed tremendously towards the archaeological understanding of this extraordinary culture The Zimbabwe Culture is essential reading for all students and avocationalists of African archaeology history and culture      *A History of Zimbabwe* A. S. Mlambo,2014-04-07 Examines Zimbabwe s pre colonial colonial and postcolonial social economic and political history and relates historical factors and trends to more recent developments in the country      *The Silence of Great Zimbabwe* Joost Fontein,2016-06-03 This book examines the politics of landscape and heritage by focusing on the example of Great Zimbabwe National Monument in southern Zimbabwe The controversy that surrounded the site in the early part of the 20th century between colonial antiquarians and professional archaeologists is well reported in the published literature Based on long term ethnographic field work around Great Zimbabwe as well as archival research in NMMZ in the National Archives of Zimbabwe and several months of research at the World Heritage Centre in Paris this new book represents an important step beyond that controversy over origins to focus on the site s position in local contests between and among individuals within the Nemanwa Charumbira and Mugabe clans over land power and authority To justify their claims chiefs spirit mediums and elders of each clan make appeals to different but related constructions of the past Emphasising the disappearance of the Voice that used to speak there these narratives also describe the destruction alienation and desecration of Great Zimbabwe that occurred and continues through the international and national archaeological and heritage processes and practices by which Great Zimbabwe has become a national and world heritage site today      **African Civilizations** Graham Connah,2001-03-29 This edition of African Civilizations first published in 2001 re examines the physical evidence for developing social complexity in tropical Africa      *Inventing Africa* Robin Derricourt,2011-03-04 Inventing Africa is a critical account of narratives which have selectively interpreted and

misinterpreted the continent's deep past. Writers have created alluring images of lost cities, vast prehistoric migrations and golden ages of past civilisations. Debates continue on the African origins of humankind, the contributions of ancient Egypt to the world and Africa's importance to global history. Images of Africa simplifying a complex and diverse continent have existed from ancient Mediterranean worlds, slave trading nations and colonial powers to today's political elites, ecotourists and aid givers. Robin Derricourt draws on his background as publisher and practitioner in archaeology and history to explore the limits and the dangers of simplifications, arguing as with Said's concept of Orientalism that ambitious ideas can delude or oppress as well as inform. Defending Africa against some of the grand narratives that have been imposed upon its peoples, *Inventing Africa* will spark new debates in the history of Africa and of archaeology. [A History of Archaeological Thought](#)

Bruce G. Trigger, 1989. Bruce Trigger's new book is the first ever to examine the history of archaeology from medieval times to the present in world wide perspective. At once stimulating and even handed, it places the development of archaeological thought and theory throughout within a broad social and intellectual framework. The successive but interacting trends apparent in archaeological thought are defined and the author seeks to determine the extent to which these trends were a reflection of the personal and collective interests of archaeologists as these relate in the West at least to the fluctuating fortunes of the middle classes. While subjective influences have been powerful, Professor Trigger argues that the gradual accumulation of archaeological data has exercised a growing constraint on interpretation. In turn, this has increased the objectivity of archaeological research and enhanced its value for understanding the entire span of human history and the human condition in general. **African Civilizations** M. Angulu Onwuejeogwu, 2000. *Histories of Archaeology* Tim Murray, Christopher Evans, 2008-09-04. In recent years there has been an upsurge of interest in the history of the discipline of archaeology. Local, national and international histories of archaeology that deal with institutions, concepts, categories and the social and political contexts of archaeological practice have begun to influence the development of archaeological theory. This volume contributes to these developments by reprinting 19 significant papers. Spanning much of the last 200 years and global in coverage and outlook, the papers provide a thorough grounding in the historiography of archaeology and will enhance understanding of the origins and growth of its theory and practice. A general introduction which is itself a contribution to historiography orients readers by outlining core themes and issues in the field. [Working as Indigenous Archaeologists](#)

George Nicholas, Joe Watkins, 2024-09-30. *Working as Indigenous Archaeologists* explores the often contentious relationship between Indigenous and other formerly colonized peoples and Archaeology through their own voices. Over the past 35 plus years the once novel field of Indigenous Archaeology has become a relatively familiar part of the archaeological landscape. It has been celebrated, criticized and analyzed as to its practical and theoretical applications and its political nature. No less important are the life stories of its Indigenous practitioners. What has brought some of them to become practicing archaeologists or heritage managers? What challenges have they faced from both inside and outside their communities? And

why haven't more pursued Archaeology as a vocation or avocation This volume is a collection of 60 autobiographical chapters by Indigenous archaeologists and heritage specialists from around the world some community based some academic some in other realms who are working to connect past and present in meaningful and especially personal ways As Archaeology continues to evolve there remain strong tensions between an objective science oriented evidentiary based approach to knowing the past and a more subjective relational humanistic approach informed by local values traditional knowledge and holistic perspective While there are no maps for these new territories hearing directly from those Indigenous individuals who have pursued Archaeology reveals the pathways taken Those stories will provide inspiration and confidence for those curious about what lies ahead This is an important volume for anyone interested in the present state and future of the archaeological discipline

**National Museums and the Origins of Nations** Sheila Watson, 2020-10-28 National Museums and the Origins of Nations provides the first international survey of origins stories in national museums and examines the ways in which such museums use the distant past as a vehicle to reflect the concerns of the political present Offering an international comparison of institutions in China North and South America the Middle East Europe and Australia the book argues that national museums tell us more about what sort of community a nation wishes to be today than how and why that nation came into being Watson also reveals the ways in which narrative and exhibition design attempt to engage the visitor in an emotional experience designed to promote loyalty to and pride in the nation or to remind visitors who are not citizens that they do not belong These narratives of origin are it is claimed based on so called factual accuracies but this book reveals that they are often selective emotional and rarely critiqued within institutions At a time when nationalism is very much back on the political agenda this book highlights how museums reflect current political and social concerns National Museums and the Origins of Nations will appeal to academics and students engaged in the study of museums heritage politics nationalism and history

**Making History in Mugabe's Zimbabwe** Blessing-Miles Tendi, 2010 The crisis that has engulfed Zimbabwe since 2000 is not simply a struggle against dictatorship It is also a struggle over ideas and deep seated historical issues still unresolved from the independence process that both Robert Mugabe's ZANU PF regime and Morgan Tsvangirai's MDC are vying first to define and then to address This book traces the role of politicians and public intellectuals in media civil society and the academy in producing and disseminating a politically usable historical narrative concerning ideas about patriotism race land human rights and sovereignty It raises pressing questions about the role of contemporary African intellectuals in the making of democratic societies In so doing the book adds a new and rich dimension to the study of African politics which is often diluted by the neglect of ideas

**The Southern African Development Community in Zimbabwe** Rich Mashimbye, 2024-02-13 This book narrates the unravelling of Zimbabwe a country that was once considered an inspiration on the continent of Africa in terms of socioeconomic development Recognising that many factors contributed to the collapse of the nation and that this collapse was a process that occurred over a long period it looks at historical events and processes

like the colonisation of the country and dispossession of the indigenous people and the misrule politically motivated violence and economic mismanagement that followed under Robert Mugabe as the pivotal moments that precipitated the subsequent fall of Zimbabwe The book also examines the role that the regional intergovernmental organisation the Southern African Development Community SADC played in trying to help Zimbabwe overcome its security political and economic challenges
