Liberation Theologies in the United States Stacey M. Floyd-Thomas, Anthony B. Pinn, 2010-03-08. Demonstrates the critical use of religion to challenge oppression in the U.S. In the nascent United States, religion often functioned as a justifier of oppression. Yet while religious discourse buttressed such oppressive activities as slavery and the destruction of native populations, oppressed communities have also made use of religion to critique and challenge this abuse. As *Liberation Theologies in the United States* demonstrates, this critical use of religion has often taken the form of liberation theologies which use primarily Christian principles to address questions of social justice including racism, poverty, and other types of oppression. Stacey M. Floyd-Thomas and Anthony B. Pinn have brought together a stellar group of liberation theology scholars to provide a synthetic introduction to the historical development, context, theory, and goals of a range of U.S. born liberation theologies. Chapters cover Black Theology, Womanist Theology, Latino/Hispanic Theology, Latina Theology, Asian American Theology, Asian American Feminist Theology, Native American Theology, Native Feminist Theology, Gay and Lesbian Theology, and Feminist Theology. Contributors: Grace Ji Sun Kim, Mary McClintock Fulkerson, Nancy Pineda Madrid, Robert Shore Goss, Andrea Smith, Andrew Sung Park, George Tink, Tinker, and Benjamin Valentin.

LGBT Studies and Queer Theory Karen Lovaas, 2013-05-13. Find out how the tension between LGBT studies and queer theory exists in the classroom, politics, communities, and relationships. *LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain* examines the similarities and differences between LGBT studies and queer theory and the uneasy relationship between the two in the academic world. This unique book meets the challenge that queer theory presents to the study and politics of gay and lesbian studies with a collection of essays from leading academics who represent a variety of disciplines. These original pieces place queer theory in social and historical contexts, exploring the implications for social psychology, religious studies, communications, sociology, philosophy, film studies, and women's studies. The book's contributors address queer theory's connections to a wide range of issues including the development of capitalism, the evolution of the gay and lesbian movement, and the study of bisexuality and gender. Many scholars working in gay and lesbian

studies still question the intellectual and political value of queer theory As a result queer theory has often been concentrated in the humanities while gay and lesbian studies are concentrated in the social sciences and history But this has begun to change in the past 10 15 years as documented by the 12 essays presented in *LGBT Studies and Queer Theory New Conflicts Collaborations and Contested Terrain* *LGBT Studies and Queer Theory New Conflicts Collaborations and Contested Terrain* includes historical notes on LGBT studies and queer theory some continuing tensions between LGBT studies and queer theory doubts about whether queer theory can lead to social change an analysis of the current state of proto fields of LGBT studies and queer studies in religion concerns that queer theory's erasure of identity feeds into late capitalism an analysis of variability in social psychologists studies of anti homosexual prejudice an exploration of the commodification of queer identities in independent cinema how and why the category of bisexuality has been marginalized a historical review and assessment of recent bisexual theory a case study of Provincetown Massachusetts an investigation of the interarticulation of race ethnicity and gender a case study of the struggle to introduce LGBT studies in the curriculum at West Chester University and much more *LGBT Studies and Queer Theory New Conflicts Collaborations and Contested Terrain* is an essential read for researchers academics and practitioners involved in exploring multifaceted aspects of LGBT Studies and Queer Theory and their points of convergence and divergence

Jesus and Justice Peter Goodwin Heltzel, 2009-07-21 This timely book investigates the increasing visibility and influence of evangelical Christians in recent American politics with a focus on racial justice Peter Goodwin Heltzel considers four evangelical social movements Focus on the Family the National Association of Evangelicals Christian Community Development Association and Sojourners The political motives and actions of evangelical groups are founded upon their conceptions of Jesus Christ Heltzel contends He traces the roots of contemporary evangelical politics to the prophetic black Christianity tradition of Martin Luther King Jr and the socially engaged evangelical tradition of Carl F H Henry Heltzel shows that the basic tenets of King's and Henry's theologies have led their evangelical heirs toward a prophetic evangelicalism in a shade of blue green blue symbolizing the tragedy of black suffering in the Americas and green symbolizing the hope of a prophetic evangelical engagement with poverty AIDS and the environment This fresh theological understanding of evangelical political groups shines new light on the ways evangelicals shape and are shaped by broader American culture

The Dialectics of Our America José David Saldívar, 1991-10-31 Joining the current debates in

American literary history José David Saldívar offers a challenging new perspective on what constitutes not only the canon in American literature but also the notion of America itself His aim is the articulation of a fresh transgeographical conception of American culture one more responsive to the geographical ties and political crosscurrents of the hemisphere than to narrow national ideologies Saldívar pursues this goal through an array of oppositional critical and creative practices He analyzes a

range of North American writers of color Rolando Hinojosa Gloria Anzaldúa Arturo Islas Ntozake Shange and others and Latin American authors José Martí Roberto Fernández Retamar Gabriel García Márquez and others whose work forms a radical critique of the dominant culture its politics and its restrictive modes of expression By doing so Saldivar opens the traditional American canon to a dialog with other voices not just the voices of national minorities but those of regional cultures different from the prevalent anglocentric model The Dialectics of Our America in its project to expand the canon and define a pan American literary tradition will make a critical difference in ongoing attempts to reconceptualize American literary history
