Handbook of South American Indians: The tropical forest tribes Julian Haynes Steward, 1946 *Entangled Edens* Candace Slater, 2002 The skill with which Slater combines various levels and modalities of narrative utilizing her personal experience as a colorful unifying thread is truly remarkable Antonio Candido author of *Antonio Candido On Literature and Society* Howard S Becker editor A very important book that quite gracefully elegantly and persuasively moves beyond the usual myth and history format to put at its center stories about the Amazon and the people who tell them *Entangled Edens* persuasively argues that the Amazon can only be grasped understood and come to terms with through its myths and stories It addresses a very real failing of modern environmentalism which for all its virtues tends to dehumanize and metaphorically depopulate when it does not villainize populations that do share its concerns or share them in very different ways Instead of forcing us to choose between land and people Slater uses the stories and the people who tell them to rethink human relations with nature and each other Richard White author of *The Organic Machine The Remaking of the Columbia River* Elegant erudite profoundly serious *Entangled Edens* is a source of inspiration and knowledge for the reader interested in the Amazon Without the cultural tradition and the life experience of Amazonia's people any analysis of the Amazon risks becoming inconsequential or opportunistic This is one of the powerful messages of this important reflection on the Amazon whose greatest riches are ultimately its people Candace Slater has written a book that will last Milton Hatoum author of *The Tree of the Seventh Heaven* 1994 and *The Brothers* 2002 **Jaguar's Shadow** Richard Mahler, 2009-09-01 When the nature writer Richard Mahler discovers that wild jaguars are prowling a remote corner of his home state of New Mexico he embarks on a determined quest to see in the flesh a big beautiful cat that is the stuff of legend yet verifiably real Mahler's passion sets in motion a years long adventure through trackless deserts steamy jungles and malarial swamps as well as a confounding immersion in centuries old debates over how we should properly regard these powerful predators as varmints or as icons trophies or gods He is drawn from border badlands south to Panama's rain forest along a route where the fate of nearly all wildlife now rests in human hands Mahler's odyssey introduces him to unrepentant poachers pragmatic ranchers midnight drug runners ardent conservationists trance induced shamans hopeful biologists stodgy bureaucrats academic philosophers macho hunters and gentle Maya Indians Along the way he is forced to reconsider the true meaning of his search and the enduring symbolism of the jaguar **Behind the Masks of Modernism** Andrew Reynolds, Bonnie Roos, 2016-02-24 A wide ranging collection that allows the mask as artifact metaphor theatrical costume fetish strategy for self concealment and treasured cultural object to clarify modernity's relationship to history Carrie J Preston author of *Modernism's Mythic Pose Gender Genre Solo Performance* Covering an impressive range of geographies cultures and time periods these carefully researched essays explore the fascinating role of masks and masking in mediating the relationship between tradition and modernity in both art and literature Paul Jay author of *The Humanities Crisis and the Future of Literary Studies* Behind the

Masks of Modernism reconsiders the meaning of modernism by taking an interdisciplinary approach and stretching beyond the Western modernist canon and the literary scope of the field. The essays in this diverse collection explore numerous regional, national, and transnational expressions of modernity through art, history, architecture, drama, literature, and cultural studies around the globe. Masks both literal and metaphorical play a role in each of these artistic ventures, from Brazilian music to Chinese film and Russian poetry to Nigerian masquerade performance. The contributors show how artists and writers produce their works in moments of emerging modernity, aesthetic sensibility, and deep societal transformations caused by modern transnational forces. Using the mask as a thematic focus, the volume explores the dialogue created through regional modernisms, emphasizes the local in describing universal tropes of masks and masking, and challenges popular assumptions about what modernism looks like and what modernity is.

The Death of Authentic Primitive Art Shelly Errington, 2023-09-01. In this lucid, witty, and forceful book, Shelly Errington argues that Primitive Art was invented as a new type of art object at the beginning of the twentieth century, but that now, at the century's end, it has died a double but contradictory death. Authenticity and primitivism, both attacked by cultural critics, have died as concepts. At the same time, the penetration of nation-states, the tourist industry, and transnational corporations into regions that formerly produced these artifacts has severely reduced supplies of primitive art, bringing about a second death. Errington argues that the construction of the primitive in the nineteenth and twentieth centuries, and the kinds of objects chosen to exemplify it, must be understood as a product of discourses of progress: from the nineteenth-century European narrative of technological progress to the twentieth-century narrative of modernism to the late twentieth-century narrative of the triumph of the free market. In Part One, she charts a provocative argument ranging through the worlds of museums, art theorists, mail-order catalogs, boutiques, tourism, and world events, tracing a loosely historical account of the transformations of meanings of primitive art in this century. In Part Two, she explores an eclectic collection of public sites in Mexico and Indonesia: a national museum of anthropology, a cultural theme park, an airport, and a ninth-century Buddhist monument newly refurbished to show how the idea of the primitive can be used in the interests of promoting nationalism and economic development. Errington's dissection of discourses about progress and primitivism in the contemporary world is both a lively introduction to anthropological studies of art institutions and a dramatic new contribution to the growing field of cultural studies.
