**Untold Stories** David Divita, 2024-01-31 Forgetting about Spain's civil war 1936-9 and subsequent

dictatorship was long seen as a necessary safeguard for the democracy that emerged after General Francisco Franco's death in 1975. Since the early 2000s however, public discussion of historical memory has awakened efforts to remember this past through the personal testimonies of Spaniards who experienced it firsthand. *Untold Stories* expands accounts of twentieth century Spain by presenting an ethnography of an ignored population: the impoverished men and women who fled Franco's dictatorship in the 1960s, participating in a wave of labour migration to northern Europe. Now in their eighties, they were born around the time of the civil war and came of age during its repressive aftermath before leaving Spain as young adults. The book features a community of such Spaniards who gather regularly at a senior centre on the outskirts of Paris. Drawing on concepts from linguistic anthropology, David Divita analyses conversational encounters recorded among the seniors to demonstrate how a turbulent past shapes mundane moments of social interaction in the present. Documenting what is said as well as what is not, Divita reveals through detailed textual analysis how silence can pervade the creation of social meanings such as belonging, authority and legitimacy. *Untold Stories* illuminates the impact of a harrowing historical period on some of Spain's most marginal citizens in the early years of the dictatorship. *Language, Youth and Identity in the 21st Century* Jacomine Nortier, Bente A. Svendsen, 2015-03-19 This volume explores and compares linguistic practices among young people in linguistically and culturally diverse urban spaces. *Digital Youth Subcultures* Kate Hoskins, Carlo Genova, Nic Crowe, 2022-12-30 This book draws together both primary and secondary empirical research and existing literature to examine transgressive subcultural activities and engagement in digital social spaces (DSS). The book addresses four objectives: 1. To understand how young people's subcultures arise online and how they are constructed and experienced in DSS. 2. To understand how and why DSS matter to young people. 3. To understand if any DSS controls exist in these online spaces. and 4. To understand how identity locations such as social class, gender and ethnicity and/or their intersections shape young people's engagement and behaviour in DSS. In addressing these objectives with a focus on European contributions, the text provides a holistic understanding of the purpose of digital social spaces in shaping young people's identities and self-perceptions. It will be of interest to postgraduate students, secondary school teachers, lecturers and scholars in education, sociology, youth studies and technology.
