more nuanced and multifaceted than previously appreciated with Israelite artisans community leaders Levites and women incorporated into a complex vision of society The ordination ritual was also transformed by scribal elites during the Persian period appearing in no fewer than five variant forms as the role of the high priesthood and its relationship to other groups was negotiated Using a broad plural methodological approach that incorporates insights from sociology ritual studies textual and literary criticism early interpretation manuscript studies and philology Nathan MacDonald's study shines new light on the historical development theology and ideology of priestly texts in the Pentateuch
