Management of Construction Projects John Schaufelberger, Len Holm, 2024-03-14 Unique among construction project management textbooks Management of Construction Projects third edition takes the

constructor's perspective carefully analyzing a complex real world construction case study from multiple angles to demonstrate the skills, knowledge and techniques students require to become successful project managers. Popular as an undergraduate text and as a contractor resource, the book identifies key stages of the project management process such as delivery methods and contracts, estimating, planning and scheduling, preconstruction services, subcontracting and material management, documentation, communications and payment controls, quality and safety, leadership and ethics and claims disputes and close out. This third edition includes a novel case study, a new chapter on preconstruction services, updated contract forms and figures and additional student exercises and integrates use of project management technology. Topics include building information models, sustainable construction, environmental compliance, lean construction and off site construction. Boxed examples or short case studies have been included with each chapter. These examples correspond directly to the chapters in which they are included and give the reader an applied approach to learning the concepts presented. While primarily focused on the management of commercial projects, the principles and techniques in *Management of Construction Projects* also apply to residential, industrial and heavy construction. Written in straightforward language from a constructor's perspective, this textbook prepares upcoming construction project managers with everything they need to see a successful project through from start to finish.

**Information Processing and Network Provisioning** Michel Kadoch, Mohamed Cheriet, Xuesong Qiu, 2025-08-19. The four volume set CCIS 2416, 2417, 2418 and 2419 constitutes the refereed post conference proceedings of the Third International Conference on Information Processing and Network Provisioning (ICIPNP 2024 Spring) held in Beijing, China during June 14-16, 2024. The 152 revised full papers presented in these proceedings were carefully reviewed and selected from 347 submissions. They focus on topics ranging from 5G/6G evolution and AI in network optimization to quantum communication and green computing.

*Construction Project Scheduling and Control* Saleh A. Mubarak, 2015-04-13. Written by a career construction professional, this text about scheduling and project control addresses the average student, detailing all the steps clearly and without shortcuts. And now for the first time, the book is part of a learning package that comes with access to an online course built around the book, provided by online training leader Red Vector. Solved and unsolved exercises cover all subjects and computer software programs for construction are included for each chapter. The book and, by extension, the class presents precedence networks as the realistic solution to scheduling the main part of project control and introduces new concepts in CPM scheduling such as the author's own Dynamic Minimum Lag technique. The new edition includes coverage of building information modeling (BIM), lean construction, sustainability and other cutting edge construction topics.

**Planning and Control Using Microsoft® Office Project and PMBOK® Guide Fourth Edition** Paul E. Harris, 2010. This book is principally a Microsoft Project book aimed at Project Management Professionals who understand the PMBOK® Guide Fourth Edition processes and wish to learn how to use Microsoft Office Project to plan and control their projects in a PMBOK® Guide environment and discover how to gain the most from the softw
