Ippolito, 2012-01-12 Whether dealing with contracts tort actions or government regulations lawyers are more likely to be successful if they are conversant in economics Economics for Lawyers provides the essential tools to understand the economic basis of law Through rigorous analysis illustrated with simple graphs and a wide range of legal examples Richard Ippolito focuses on a few key concepts and shows how they play out in numerous applications There are everyday problems What is the social cost of legislation enforcing below market prices minimum wages milk regulation and noncompetitive pricing Why are matinee movies cheaper than nighttime showings And then there are broader questions What is the patent system's role in the market for intellectual property rights How does one think about externalities like airport noise Is the free market a regulated solution or tort law the best way to deliver the efficient amount of harm in the workplace What is the best approach to the question of economic compensation due to a person falsely imprisoned Along the way readers learn what economists mean when they talk about sorting signaling reputational assets lemons markets moral hazard and adverse

selection They will learn a new vocabulary and a whole new way of thinking about the world they live in and will be more productive in their professions

The Microeconomics Anti-Textbook Rod Hill, Tony Myatt, 2021-12-02 Mainstream textbooks present economics as an objective science free from value judgements The Microeconomics Anti Textbook demonstrates this to be a myth one which serves to make such textbooks not only off puttingly bland but also dangerously misleading in their justification of the status quo and neglect of alternatives In this fully updated and expanded edition of their celebrated book Professors Rod Hill and Tony Myatt lay out the essentials of each topic in the standard texts in a clear and concise way before presenting an anti text analysis and critique Challenging the assumptions arguments and models Hill and Myatt provide the essential guide to decoding the textbooks and show that real economics is far more interesting and subversive than the simplistic version presented to students

Insider Trading John P. Anderson, 2018-06-07 Explains why the current US insider trading regime is inefficient and unjust and offers a clear path to reform

The Low Interest Rate Policy of the European

Central Bank. Are European Savers being expropriated? Heiko Schmolke, 2017-03-16 Central banks around the world have lowered their key interest rates to historical lows and implemented large asset purchase programs in the past few years. Within the scientific and most recently also increasingly in the political debate the nominal interest rate is mainly the subject of discussion. The question is often raised whether saving and retirement provision are still worthwhile for private households especially in Germany. In this context it is often ignored or not considered that the purchasing power of the nominal interest rates fluctuates considerably with the inflation rate. Inflation adjusted real interest rates are therefore decisive for the actual income from financial assets and crucial for the savings and investment behavior. This study therefore shall play its part to investigate scientifically the influence and correlation of low and negative key interest rates on yield levels of selected asset classes within the sphere of influence of the European Central Bank. In this context the mainly populist question is also answered whether savers are expropriated slowly.

Non-Fiscal Tax Policies and State Sovereignty Giulio Allevato, 2024-08-06 In this interdisciplinary book Giulio Allevato explores how the non fiscal function of the taxing power has contributed to the establishment, consolidation and maintenance of an effective power to govern in modern nation states. Innovative in its historical approach this book illustrates how the link between non budgetary tax policies and state sovereignty continues to play out in the current global landscape. **A**

Comparative Analysis of Policing Consumer Contracts in China and the EU Jiangqiu Ge, 2019-02-07 This book seeks to fill a gap in the existing literature by describing the formulation, interpretation and enforcement of the rules on consumer contracts in China and the EU and by mapping key similarities and differences. The study addresses selected issues regarding consumer contracts. Sources of law in the two jurisdictions are first discussed to set the scene. Afterwards one preliminary issue how to define the concept of a consumer contract and two substantive topics unfair terms and withdrawal rights are dealt with. Apart from the descriptive analysis the book also provides possible explanations for these comparative findings and argues that the differences in consumer contract rules can be primarily attributed to a disparity of markets. The book offers a valuable resource particularly for researchers and practitioners in the fields of private law and comparative law.
