Technology Transfer and International Production Jin W. Cyhn,2002-03-27 This book analyses the technology development efforts of Korea s electronics industry the country s largest exporter It asks how the Korean electronics industry was able to develop both in terms of production and technology despite low inflows of licensing and foreign direct investments The books argues that the key to its spectacular growth has been through its participation and learning from an inter firm arrangement called original equipment manufacturing arrangement OEM A number of firm level case studies on the Korean electronics industry support this argument The role of the government especially related to its technology policy has also been analysed The government was effective in providing financial incentives for the firms technological upgrading efforts but its supplying of direct technological assistance had limited success Overall this book argues that contrary to many previous studies the role of multinational enterprises has been significant in the development of Korea s electronics industry and that they have acted as a technological tutor for Korea through OEM P xiv tributors world 0 **Official Gazette of the**

United States Patent and Trademark Office United States. Patent and Trademark Office,1999 *Tiger Management* Martin Hemmert,2012 Throughout the last several decades Korean companies have entered the world markets in a wide range of manufacturing industries with great success How did they achieve this exceptional performance This book uncovers the secret of their performance through a comprehensive analysis of the Korean management system It explains to an international audience how it has developed why it works so well and what non Koreans can learn from it The book analyzes the management of Korean firms from three different perspectives First a historical perspective is applied by showing how Tiger Management has emerged and how it has been continuously advanced over the last 50 years The breathtaking stories of how Korean companies seemingly coming from nowhere have challenged their Western and Japanese competitors on the world markets are told Second the cornerstones of Tiger Management are analyzed from a functional viewpoint showing that

the success of Korean companies rests on a smart combination of business strategy leadership and human resource management practices Finally the present and future of Tiger Management is discussed by showing how Korean companies have adapted to changes in their business environment at home and abroad and what non Korean companies can learn from their Korean rivals The book gives an up to date analysis of Korean management practices from a global perspective It identifies the success factors of Korean companies long term aggressive and persisting business planning speed flexibility strong leadership strong teamwork and high investment into human skills and capabilities It illustrates how these management practices complement each other and provides non Korean companies with signposts how they can adopt them
