Jews in the Gym Leonard J. Greenspoon, 2012-09-15 For some the connection between Jews and athletics might seem far fetched But in fact as is highlighted by the fourteen chapters in this collection Jews have been participating in and thinking about sports for more than two thousand years The articles in this volume scan a wide chronological range from the Hellenistic period first century BCE to the most recent basketball season The range of athletes covered is equally broad from participants in Roman style games to wrestlers boxers fencers baseball players and basketball stars The authors of these essays many of whom actively

participate in athletics themselves raise a number of intriguing questions such as What differing attitudes toward sports have Jews exhibited across periods and cultures Is it possible to be a good Jew and a great athlete In what sports have Jews excelled and why How have Jews overcome prejudices on the part of the general populace against a Jewish presence on the field or in the ring In what ways has Jewish participation in sports aided or failed to aid the perception of Jews as good Germans good Hungarians good Americans and so forth This volume which features a number of illustrations many of them quite rare is not only accessible to the general reader but also contains much information of interest to the scholar in Jewish studies American studies and sports history
