as an organizer extensive interviews with the Ontario Coalition Against Poverty OCAP activists and Toronto bureaucrats and freedom of information requests to provide a detailed account of the work of OCAP This book shows that poor people s organizing can be effective even in periods of neoliberal retrenchment Fight to Win tells the stories of four key OCAP

homelessness campaigns stopping the criminalization of homeless people in a public park the fight for poor people s access to the Housing Shelter Fund a campaign to improve the emergency shelter system and the City s overarching but inadequate Housing First policy and the attempt by the City of Toronto to drive homeless people from encampments during the COVID pandemic This book shows how power works at the municipal level including the use of a multitude of demobilization tactics devaluing poor people as sources of knowledge about their own lives and gaslighting poor people and anti poverty activists

AJ Withers also details OCAP s dual activist strategy direct action casework coupled with mass mobilization for both immediate need and long term change These campaigns demonstrate the validity of OCAP s longstanding critiques of dominant homelessness policies and practices Each campaign was fully or partially successful these victories were secured by anti poverty activists through the use of and the threat of direct disruptive action tactics **550 AP Biology Practice**

Bio-based Solutions for Sustainable Development of Agriculture, Volume II Eduardo V. Soares, Helena M. V. M. Soares, Spyridon Alexandros Petropoulos, 2024-11-26 The agricultural industry is primarily driven by the fast growth of the population and the subsequent need to supply sufficient food globally It is estimated that the global population will expand from 8 billion to about 9 billion in 2050 and crop production needs to double in order to supply enough food for all people by 2050 Moreover the climate change and the intensification of areas of infertile and unproductive soil create new and additional difficulties It is urgent and of utter importance to find alternative practices to the traditional ones based on the indiscriminate use of various synthetic chemicals e g fertilizers and pesticides which are mainly used nowadays to overcome current and future agricultural challenges in a natural more efficient and sustainable way Recent regulations EU 1009 2019 and Farm Bill in EU and USA respectively promote the adoption of biostimulants in agriculture and open the market for new and innovative solutions This regulation is a major step forward that should encourage the scientific community in strict interaction with the industry in the continuous development of new bio based solutions for modern agriculture
