The Brain-compatible Classroom Laura Erlauer,2003 Did you know that the best time to learn something new is during the first two hours after you wake up and the last two hours before you go to sleep Did you know that stressing key points in color can boost memory retention by 25 percent Author Laura Erlauer has studied brain research and applied it to classroom teaching in a way that is both intuitive and scientific

Synthesizing recent research exploring how the brain works she explains how students emotions and stress affect their ability to learn how the physical classroom environment influences learning and what forms of assessment work best Drawing on her experience as a teacher and principal Erlauer summarizes current brain research and shows how teachers can use this knowledge in the classroom every day The book covers a wide variety of topics including The most effective use of collaborative learning Simple ways to keep the attention of your students for the whole class period Keys to involving students in decision making to increase their engagement and achievement Ways to make lesson content relevant to motivate students and Things every teacher can do to limit stress in the classroom and school environment Each chapter provides examples from real classrooms showing how the research can be used to improve student learning The ideas and strategies presented are from a variety of grade levels and subject areas and can be used immediately to create a classroom where students can reach their full potential Bulletin Board Display Rhylis Weisjohn,1960 **Play and Creativity in Art**

Teaching George Szekely,2015-03-02 In *Play and Creativity in Art Teaching* esteemed art educator George Szekely draws on his two classic volumes *Encouraging Creativity in Art Lessons* and *From Play to Art* to create a new book for new times The central premise is that art teachers are not only a source of knowledge about art but also a catalyst for creating conditions that encourage students to use their own ideas for making art By observing children at play and using props and situations familiar to them teachers can build on children s energy and self initiated discoveries to inspire school art that comes from the child s imagination The foundation of this teaching approach is the belief that the essential goal of art teaching is to inspire children to behave like artists that art comes from within themselves and not from the art teacher *Play and Creativity in Art Teaching* offers plans for the study of children s play and for discovering creative art teaching as a way to bring play into the art room While it does not offer a teaching formula or a single set of techniques to be followed it demystifies art and shows how teachers can help children find art in familiar and ordinary places accessible to everyone This book also speaks to parents and the important roles they can play in supporting school art programs and nourishing the creativity of their children **Deciding Communication Law** Susan Dente Ross,2004-05-20 This clearly written and well focused volume

combines concise decisions of the primary areas of communication law with the foundational case decisions in those domains Thus in one volume students of communication law constitutional law political science and related fields find both the key rulings that define each area of law and a detailed summary of the legal concepts doctrines and policies so vital to understanding the rulings within their legal context The text forgoes the tendency to provide encyclopedic treatment of all the relevant cases and focuses instead on the two or three cases most vital to an accurate and informed understanding of the current state of each field of communication law The chapters provide readers with the most salient concepts and the necessary depth to understand the law while permitting most reading time to be directed to the law itself Full text rulings allow readers to immerse themselves in the law itself to develop a feel for its complexity its flexibility and its language Useful

as a quick reference to the landmark rulings and the jurisprudence of communication law this book also serves well as the primary text in related undergraduate courses or as a supplemental text in graduate classes in the field
