West Rand Exam Papers November 2013:

The Grand Scam Rob Rose, 2013-11-20 From 2005 to 2009 the heir to one of South Africa's blue blood families Barry Tannenbaum methodically constructed the largest ever con in South African history The Grand Scam exposes details about the brazen greed of the scammers a bank that facilitated the shady dealings rather than alerting the authorities and the naivety of business people who should have known better It goes far beyond the original news stories containing original research and material that for the first time answers the central question of why Barry Tannenbaum the grandson of the founder of one of the country's biggest pharmaceutical firms Adcock Ingram offered investors stratospheric returns of more than 200 per cent a year by investing in the components used to make AIDS drugs It was nothing more than a lie which suckered the country's business elite including the former CEO of Pick n Pay the one time head of the Johannesburg Stock Exchange and the ex boss of OK Bazaars After the bubble popped in June 2009 finance minister Pravin Gordhan announced that hundreds of investors in South Africa Australia and Europe had ploughed more than R12.5 billion into Tannenbaum's scheme based on the empty promise of immense riches Dwarfing the Brett Kebble rip off Fidentia and the Krion pyramid scheme it proved to be the most embarrassing financial disaster in the country's history and it exposed holes in a banking and financial system billed as one of the safest in the world For Tannenbaum's victims the nightmare continued after the scheme collapsed as liquidators tax officials and criminal investigators demanded their pound of flesh But Tannenbaum now at large on Australia's Gold Coast continues to live as if nothing happened working for an Australian insurance company The question that hasn't been answered until now is how did Tannenbaum swindle so many people with such ease And more crucially why did he do it Through extensive interviews with his family friends and numerous investors this book provides the startling answers to those questions For the first time the real motivation that fuelled South Africa's Bernie Madoff is laid bare

Unstable Ground Rosalind C. Morris, 2015-03-04 What has gold done to people What has it made them do The Witwatersrand in South Africa once home to the world's richest goldfields is today scattered with abandoned mines into which informal miners known as zama zamas venture in an illicit often deadly search for ore Based on field research conducted across more than twenty five years around these mines *Unstable Ground* reveals the worlds that gold made possible and gold's profound costs for those who have lived in its shadow and dreamt of its transformative power From the vantage point of the closure of South Africa's gold mines Rosalind C Morris reconsiders their histories beginning in the present and descending into the pasts that shaped them Anchored in evocative descriptions of mining in the ruins this book explores the social worlds built on gold and the lives that were remade and sometimes undone by the industry over a century and a half Viewing this industry from its margins against the backdrop of the cyanide revolution the gold standard's demise and recurrent sinkholes as well as the insurrectionary protests and violence that continue to this day it recasts the history of South Africa and the incomplete effort to overcome apartheid amid the transformations of the global economy In writing that

is by turns immersive incisive and poetic Morris unearths a history that was born of imperial aspiration and that persists as a speculative mirage Interweaving ethnography history personal testimony and political thought with striking readings of South African literary texts *Unstable Ground* is a work of extraordinary ambition and depth **Foundations of the Islamic State** Patrick B. Johnston, Jacob N. Shapiro, Howard J. Shatz, Benjamin Bahney, Danielle F. Jung, Patrick K. Ryan, Jonathan Wallace, 2016-05-18 Drawing from 140 recently declassified documents this report comprehensively examines the organization territorial designs management personnel policies and finances of the Islamic State of Iraq ISI and al Qaeda in Iraq Analysis of the Islamic State predecessor groups is more than a historical recounting It provides significant understanding of how ISI evolved into the present day Islamic State and how to combat the group **Between Time and Space** Sulevi Riukulehto, 2015-05-13 In new regional history national states are not seen to play a special role Regions are understood as evolutionary processes in which time and space history and geography are connected in research questions To illustrate the entanglement of time and space in various forms and ages this volume explores regional history from around the globe The editor's review of the various works written under the heading of regional history serves as an introduction to this theme This volume shows how historical events and changes have influenced the reproduction of regions in Czechia it will also highlight how regional identities were manifested in a cultural form in romantic operas of post Napoleonic Europe The historically rich West Wits Line gold mining region in the West Rand of South Africa is also examined within a regional history framework with the broad theme of ecohealth and well being Through case studies the volume also explores the history of governance and planning in New Zealand's largest city region Auckland as well as the recent economic history of the State of Mato Grosso in Brazil Finally it also brings the idea of regional history to the most personal level of historical consciousness by examining the experiential shaping of home in the broader meaning of Heimat as a question of belonging somewhere both in time and in space *Upgrading Informal Settlements in South Africa* Liza Rose Cirolia, Tristan Görgens, Mirjan van Donk, Warren Smit, Scott Drimie, 2017-11-10 More than 1.2 million households in South Africa live in informal settlements without access to adequate shelter services or secure tenure There has been a gradual shift to upgrading these informal settlements in recent years and there have been some innovative experiments *Upgrading Informal Settlements in South Africa* a partnership based approach examines the successes and challenges of informal settlement upgrading initiatives in South Africa and contextualises these experiences within global debates about informal settlement upgrading and urban transformation The book discusses The South African informal settlement upgrading agenda from local national and international perspectives South African city experiences with informal housing and upgrading The role of partnerships actors and capabilities in pursuing an incremental upgrading agenda Tools instruments and methodologies for incremental upgrading Implications of the upgrading agenda for the transformation of cities The book has been written and edited by a wide range of practitioners and researchers from government NGOs the private sector and academia It covers

theory and practice and represents a vast accumulated body of housing experience in South Africa

The Freedom Movement's Lost Legacy Keith P. Griffler, 2023-06-06 In the century after emancipation the long shadow of slavery left African Americans well short of the freedom promised to them While sharecropping and debt peonage entrapped Black people in the South European colonialism

had bred a new slavery that menaced the liberty of even more Africans A core group of Black freedom movement leaders including Ida B Wells and W E B Du Bois followed their nineteenth century predecessors in insisting that the continuation of racial slavery anywhere put Black freedom on the line everywhere They even predicted the consequences that ignited the recent nationwide Black Lives Matter movement the rise of a prison industrial complex and the consequent erosion of African Americans faith in the criminal justice system The Freedom Movement s Lost Legacy Black Abolitionism since Emancipation is the first historical account of the Black freedom movement s response to modern slavery in the twentieth century Keith P Griffler details how the mainstream international antislavery movement became complicit in the enslavement of Black and brown people across the world through its sponsorship of racist international antislavery law that gave the new slavery explicit legal sanction Black freedom movement activists thinkers and organizers did more than call out this breathtaking betrayal of abolitionist principles they dedicated themselves to the eradication of slavery in whatever forms it assumed on the global stage and developed an expansive vision of human freedom This timely and important work reminds us that the resurgence of today s Black freedom movements is a manifestation and continuation of the traditions and efforts of these early Black leaders and abolitionists an important chapter in the history of antislavery and the ongoing Black freedom struggle

The Chinese Constitution of Central Asia N. Godehardt, 2014-03-21 China s commitments in Central Asia illustrate how regional foreign policy works and how long standing principles of Chinese foreign policy might be revised in the near future China s rise has moved Asia which is why it seems that what we have traditionally regarded as the geographic and political scope of Asia might actually considerably change in the near future Nadine Godehardt gives crucial insights into the Chinese expert discourse on Central Asia analyzing how Chinese experts define

Central Asia when they talk and write about policy issues related to China's immediate Western neighbourhood. In this context she gives an inside perspective on Chinese voices whose meanings are rarely examined in Chinese International Relations studies.

Uranium - Past and Future Challenges Broder J. Merkel, Alireza Arab, 2014-08-28 This book is the collection of papers from the latest International Uranium Mining and Hydrogeology Conference UMH VII held in September 2014 in Freiberg, Germany. Each session covers a wide range of related topics and provides readers with up-to-date research and solutions on those matters.

Making Public in a Privatized World David A. McDonald, 2016-02-15 How do we provide effective public services in a deeply neoliberal world? In the wake of the widespread failure of privatisation efforts, societies in the global south are increasingly seeking progressive ways of recreating the public sector. With contributors ranging from cutting-edge scholars to activists working in health, water, and energy provision, and with case studies covering a broad spectrum of localities and actors, *Making Public in a Privatized World* uncovers the radically different ways in which public services are being reshaped from the grassroots up. From communities holding the state accountable for public health in rural Guatemala to waste pickers in India and decentralized solar electricity initiatives in Africa, the essays in this collection offer probing insights into the complex ways in which people are building genuine alternatives to privatization while also illustrating the challenges which communities face in creating public services which are not subordinated to the logic of the market or to the monolithic state entities of the past.

Global Criminal and Sovereign Free Economies and the Demise of the Western Democracies Robert J. Bunker, Pamela Ligouri Bunker, 2014-09-15 Much has been written about the many economic benefits of globalization and the triumph and spread of democratic liberalism with the end of the Cold War following the demise of the Soviet Union. This work takes issue with such wine and roses perspectives about the future of the Western democracies and their faith-based views on the moral purity of a globalized marketplace. It also questions many of the assumptions found in the status quo reinforcing discipline of international political economy (IPE), a discipline that focuses on the formal and legitimate economies and the facade they present that international relations and commerce is still dominated and dictated solely by the old Westphalian state-centric system. Having highlighted these concerns, this book looks at two major themes. The first theme focuses on the theoretical perception that a Dark Renaissance is taking place globally, one in which the Western liberal democracies and its citizens are ill-prepared to respond because it exists at the trans-civilization level bridging the modern to the post-modern world. The second theme focuses on the actual process of state deconstruction that is taking place. This process is leading to what may become the very undoing of the democracies. Drawing together experts from a variety of backgrounds, this work explores the increasing shift away from formal-based capitalism and evaluates through case studies how different states are responding to the challenges they face. This work will be of great interest to students and scholars of international political economy.

Inspired Finance M. Looft, 2014-10-02 By tracing an arc of thought and action from both historical and religious figures up through modern microfinance practitioners Looft illustrates the many ways religious inspiration continues to remain at the crux of international economic development while raising compelling questions around God and Mammon working together to help the poor

Governing by fake news Jacques Baud, 2023-03-07 What are Islamic State is seeking to create a civil war in France that Syrian President Bashar al Assad used chemical weapons that Vladimir Putin is trying to destabilise our democracies that terrorism has struck France not for what it does but for what it is that the genocide in Darfur has claimed 400 000 victims Literally none but these assertions are enough to establish the foreign policy of Western countries The author a former agent of the Swiss strategic intelligence service reviews the main contemporary conflicts that Western countries have managed with fake news over the last thirty years

Demokrasi Hamish McDonald, 2015-01-06 Indonesia a nation of thousands of islands and almost 250 million people straddles the junction of the Pacific and Indian oceans Current President Susilo Bambang Yudhoyono has presided over 6 per cent average yearly growth of its economy to surpass 1 trillion If this rate continues Indonesia will join the world s ten biggest economies in a decade or so just behind the so called BRIC countries The much discussed recent documentary *The Act of Killing* revived some of its darker past and Barack Obama s reminiscences about the childhood years he spent there briefly shone the spotlight on a country many Americans know little about Yet as Indonesia approaches its 2014 parliamentary and presidential elections its future is wide open Though the largest Muslim nation by population it remains a receiver of wisdom from the Arab world rather than a messenger of multi religious tolerance Its pursuit of trade agreements with Japan and South Korea have burnished its economic ambitions but its diplomacy is long on so called soft power and short on sanctions or force So what does the future hold for this pivotal place Award winning Asia Pacific journalist Hamish McDonald s *Demokrasi* is an accessible and authoritative introduction to the modern history and politics of this fascinating country
